## FRANCE HURRIES PEACE MESSENGER TO KEMAL PASHA URGING HIM TO AWAIT RESULT OF MEETING OF POWERS; POINCARÉ AND CURZON RESUME CONFERENCE IN PARIS

### MAN TAKEN FROM HOME AND TARRED AT WOOD RIVER, ILL.

Retired Building Contractor, 50 Years Old, Tells of Visit at Night by Armed and Masked Party of Four.

### SUFFERED NO ILL EFFECTS, HE SAYS

F. L. Craine Tells of Receiving Anonymous Complaints After Renting His Houses to Foreigners.

F. L. Craine, 50 years old, a retired building contractor, of 443 Whitehall avenue, Wood River, Ill., was taken from his home at 9:30 last night by four masked men, who led him into a wooded section about five miles northeast of Wood River and coated him with tar. After he had reported his experience to the police, he gave the following version to a Post-Dispatch reporter: "I had just retired and was in my nightgown when someone knocked at the front door. When I responded, four men wearing handkerchiefs over their faces pointed revolvers at me and ordered me to accompany them in an automobile. Dragged to Auto, He Says. "When I hesitated they caught my arm and dragged me to the 'main' house. They blindfolded me and tied my hands behind my back with a piece of rope. I struggled with them and was struck in the face several times. They drove me there for more than an hour without saying a word to me. I judge we traveled more than 15 miles. "Finally the car stopped and I was taken from the car and placed on my back. Some tar was poured on my chest and stomach and then I was told to get on my feet. As I stood up tar was poured on my head and one of the men said, 'Burn the words.' "The men then left and when I heard the automobile departing I tried myself and took the blindfold from my face. I walked about three miles until I came to a farmhouse, where I telephoned to my wife and she came out with a policeman, finding me some clothing. I later learned the tar and today I do not feel any the worse for my experience. I have no idea who the men were.

Tells of Anonymous Letters. "I own four residences on Whitehall avenue, and about three months ago I rented three of the houses to three persons, one proprietor of a shoe shine shop and the others employees of the shoe shine shop. I was requested several times by persons in the neighborhood to let me of my tenants, and received anonymous telephone messages threatening me with bodily harm if I did not compel the foreigners to leave.

### BRANDSVILLE PEACH CROP BRINGS \$74,000

Shippers Strike Said to Have Reduced Receipts for Fruit Shipments by One-Half. BRANDSVILLE, Mo., Sept. 22.—Receipts from the famous Koshkonong brand fruit district for the peach crop that was shipped to the market a month ago, have been reduced by one-half, according to the district secretary and treasurer of the Growers' Association, has announced. In addition to the association's shipments, 41 cars of peaches were shipped out from the district during the week ending Sept. 20, bringing the total receipts \$74,000. It is said the crop netted the only half of what they would have received except for the railroad strike. This year, because of the strike, commission men did not come to the district to bid on the cars as usual and the growers were compelled to ship on their own account to large markets and at a profit it could for them.

### CLARK KRETSCHMAR SHOT IN SALOON BY A STRANGER

Seriously Wounded by One of Three Men, Who, He Says, Entered Place and Fired Without Provocation

Clark Kretschmar, 30 years old, who resides at the Bismarck Hotel, 5370 Pershing avenue, was shot in the right breast at 1:25 a. m. today in the saloon of Tony Massa of 5651 Delmar boulevard. He said that the bullet was fired by one of three men, strangers to him, who entered the saloon and shot without provocation. The police pursued an automobile from the saloon and found it to be that of Mrs. James P. Miles Jr. of 1416 Shawmut place, wife of the son of Justice of the Peace J. P. Miles of the Sixth District. They captured Matt Donnelly, an ex-convict and gangster who has been arrested 26 times in the last few years, near the machine in an alley in the rear of the Miles home and are seeking J. P. Miles Jr. Kretschmar's wife was Miss Nell Baker, daughter of the late Mrs. Katie Augusta Baker, and in 1921 inherited, with a sister, her mother's estate valued at \$300,000 or more. Kretschmar, a former St. Louis University football player, has at various times been a sugar broker, a newspaper reporter, an ensign in the navy and proprietor of a garage at 276 De Balivre avenue.

Bullet Pierced Both Lungs. At St. John's Hospital the attending surgeon, Dr. George Garney, said that the bullet entered the fifth rib laterally and traversed the chest and lodged in the left chest against the sixth rib posteriorly, apparently passing behind the heart. He added that Kretschmar's condition is so serious as to prevent removal of the bullet at this time, and that complications, such as pneumonia, may set in, as both lungs were pierced by the bullet.

Found on Sidewalk. Kretschmar has not been able to enlarge upon a statement he made following the shooting to police who found him on the sidewalk outside Massa's saloon. They were attracted to the saloon by the firing. Kretschmar said that he was standing at the bar and that the men had entered from the back and had shot him into a position facing them. He said that he was not alone, but that he was with another man who was shot. Kretschmar said he was carrying a loaded revolver. He is a Deputy Constable

### WOMEN TO GIVE PLANE TO POPE

Trips Without Stepping on Italian Soil Could Be Taken. ROME, Sept. 22.—A committee of Milan women has been formed to present Pope Pius with an airplane, which would permit him, without crossing on Italian soil, to take extensive journeys, says the newspaper Mondo. The newspaper adds that the idea was suggested by the recent flights of Cardinals Tacci and Ranzani to Loretto.

### In Next Sunday's Post-Dispatch

Professor Tiernan Explains the Law as He Applies It to His Wrecked Home—The singular situation in a South Bend (Ind.) home, discussed with judicial calm by the husband himself, professor of law at Notre Dame University. The Shuffling "Flapper" A New Problem in St. Louis' Big Stores—Young girl amateurs, whose earnings do not suffice for the fine raiment they desire, are superseding the old-time professional in this kind of theft. "Divorce From the Wife's Angle"—A Blessing, Says Reno Judge—How the growing economic independence of woman brought freedom from domestic slavery in many instances, told by a noted jurist. No Reform Hobbies for This Woman Mayor!—Says Miss Emma J. Harvat, head of municipal government of Iowa City, Ia. "A law that nine-tenths of the people do not want is no law."

### CLOTHING DEALER NOTIFIES RELATIVE, ENDS LIFE IN HOTEL

George H. Price, 30, Found Dying by 'Father-in-Law Whom He Called to Room.

### TAKES POSION AFTER WRITING MESSAGES

"Don't Worry About Me Any More," One Note Reads—Anxiety Over Finances Recalled.

George H. Price, 30 years old, proprietor of a clothing store at Eighteenth street and Franklin avenue, engaged a room at the Maryland, and immediately began arrangements to end his life. After writing letters to his wife and father-in-law, H. Kessler, president of the Kessler Skirt Co., 1531 Washington avenue, he telephoned his father-in-law, asking him to come to the hotel at once. When Kessler reached the hotel at 1 p. m., he found Price dying from poison. A physician was called, but Price died a few minutes later.

Price's brother-in-law, L. E. Balkin, vice president of the Kessler Skirt Co., said Price's message to his father-in-law was: "Don't worry about me any more. You will find me at the Marquette Hotel." Balkin also said that Price had been troubled about financial affairs, but had not indicated to any of his relatives that he contemplated suicide. Price formerly resided with his family in apartments above his store, but three weeks ago moved to 5749 Kingsbury avenue. He is survived by his widow, Mrs. Rose Price, and three children, Celia, 10 years old; Bernice, 7, and Elmer, 3.

### "SEA-GOING" SAVINGS BANK HELPS SAILORS SAVE MONEY

Lake Carriers' Association Establishes System Operative at Various Ports. CLEVELAND, O., Sept. 22.—The "seagoing sailor" is a thing of the past and the "sea-going" savings bank plan started by the Lake Carriers' Association is given credit for the change. The prodigality of the sailor with his money when ashore was a byword everywhere, until about 10 years ago, when J. H. Sheadle, then a member of the association and since deceased, proposed a savings bank. Under the co-operation of a Cleveland bank, his plan was put into operation.

The captain, in paying off, asked each man, him if he wished to deposit any part of his pay in the bank. If so, he made a draft on the owner for the amount the sailor wished to deposit. Three copies of the draft were made, the original being mailed to the trust company, one to the owner stating that the draft had been made on him, and the other retained by the captain as a record. The withdrawal blank is an order on the depositor's bank account. The bank honors it by mailing to the address indicated a New York draft to the order of the depositor. In cashing the draft at any port, the depositor may be identified by the captain or otherwise, of the master himself may cash it if he has the funds. The bank pays four per cent on all deposits.

During the season this year crews on 27 steamers and one barge deposited a total of \$165,080.

### World's Greatest Fishhook Salesman

By the Associated Press. BOSTON, Sept. 22.—Llewellyn G. Lohrop, inventor of a mechanical fish hook for general use on vessels, died at a hospital here. As a ship chandler he was said to have sold more fish hooks than any other man in the world.

### Einstein Goes to Japan.

(Copyright, 1922.) BERLIN, Sept. 22.—Prof. Einstein will go to Japan to lecture in the universities. He will sail from Marseilles.

### U. S. ASTRONOMERS GET PHOTOGRAPHIC PLATE OF ECLIPSE

Picture Taken for Purpose of Verifying Einstein's Theory of Relativity.

By the Associated Press. LONDON, Sept. 22.—The astronomers had a splendid view of yesterday's solar eclipse from Woolol, near Broome, Australia, according to a dispatch to the Times from Perth. The sky was cloudless and the observations were most successful.

The American expedition at Woolol, headed by Prof. W. W. Campbell, director of Lick Observatory, saw a corona 40,000 miles wide from which four long streamers of light shot forth, one extending 2,500,000 miles from the sun's center, says a dispatch to the Exchange Telegraph from Melbourne. The duration of the totality of the eclipse was four seconds shorter and began 15 seconds later than had been predicted.

The American astronomers are said to be highly pleased at the success of the photographic plate taken with the purpose of verifying Einstein's theory of relativity, namely the bending path of a ray of light in its passage through the sun's gravitational field.

### 'TALLEST MAN IN WORLD' HELD FOR IMMIGRATION AUTHORITIES

Albert Kramer, in Hospital With Abscesses on Feet, May Be Deported to Holland.

Albert Kramer, proclaimed the tallest human in the world by carnival cries, today is attempting to compose his eight feet three inches of length in a normal size bed at the city hospital where he is being held for the immigration authorities.

The giant, who is suffering from abscesses of the feet, was brought to St. Louis this morning by an immigration officer from Springfield, Ill., where he was on exhibition at the State Fair. Kramer, a native of Amsterdam, came to this country nearly three years ago, and has traveled extensively with carnival troupes. He told city hospital doctors that his feet had troubled him for years and that he had the large toe of his right foot amputated when traveling with a show in Germany four years ago. If it is found that his trouble is serious he is subject to deportation. Kramer said he would welcome deportation to Holland, as he had been unable to hold any of his earnings in this country.

Kramer is 35 years old, and weighs 250 pounds. His wife, Mrs. Nellie Kramer, 19 years old, is of normal size. She also is a native of Holland, having been brought to this country nine years ago by her parents, who live at Glenwood, Ill. She expressed willingness to return to Holland with her giant husband.

### WILHELM MARRIAGE REPORTED BITTERLY OPPOSED BY FAMILY

Relations of Former Kaiser and Old Son Said to Have Become Strained.

By the Associated Press. The marriage of former Kaiser Wilhelm will occur not with the freely given consent of the entire Hohenzollern family, as reported from Berlin, but despite its bitter opposition and, above all, against the strongly expressed wish of the former Crown Prince, according to information from a source very close to the former Kaiser. The relations between the former Crown Prince and his father lately have become very strained, it is stated. The Crown Prince, more than a fortnight ago, instead of remaining at Doorn Castle, installed himself at Amerongen Castle with Count Benthin.

The opposition on the part of the family may be due, it is said, to financial reasons, rather than sentimental ones of pride or caste. Those in a position to know say the former Kaiser's sons, reduced to leading a very simple life by their father's dictates, may be unable to accept their situation. They also fear further complications and contests in the event of the death of Wilhelm, when his personal fortune, estimated at \$20,000,000, will be divided.

### Earth Shocks in Alaska.

By the Associated Press. ANCHORAGE, Alaska, Sept. 22.—Doors were rattled, but no damage done, by a series of seven earth shocks between 1 and 5 a. m. here yesterday. The series ended with a severe jolt.

### KEMALISTS SEIZE TOWN ON ASIATIC SIDE OF STRAITS, THREATEN ANOTHER

Second Point Is Key Position, and Taking of It, Naval Experts Say, Would Enable Nationalists to Prevent Free Entry to Dardanelles of British Fleet.

### TURK GUNS COULD COMMAND ENTRANCE

Ez-Ine, Taken, and Num Kalesi, Threatened, Occupied Until Today by French and Italian Troops; Neutral Zone Figures in Movement

By the Associated Press. ROME, Sept. 22.—The apostolic delegation at Constantinople telegraphed the Vatican today that the situation there was very grave. By the Associated Press. CONSTANTINOPLE, Sept. 22.—The apostolic delegation at Constantinople telegraphed the Vatican today that the situation there was very grave.

By the Associated Press. CONSTANTINOPLE, Sept. 22.—Turkish Nationalists have seized the town of Ez-Ine, on the Asiatic side of the Dardanelles, and are threatening Kum Kaleli, an important key position to the south side of the straits. The Kemalists were nowhere opposed.

The Nationalist move, in the opinion of the naval experts here, will enable the Turks to prevent free ingress to the Dardanelles and the British Atlantic fleet units which are on the way from Malta. The important positions involved were up to today occupied by the French and the Italians, and from them the heavy Turkish batteries can command the entrance to the straits.

Ez-Ine, seized by the Turks, is a small town in the valley of Meander River in the Vigha district south of the Dardanelles and is less than 20 miles from Kum Kaleli. The latter town, which the Nationalists are threatening, is on the waterway itself—almost at the entrance to the straits from the Aegean.

Both places are within the zone of neutrality of the straits laid down by the treaty of Sevres. It is uncertain from available data whether Ez-Ine is within the military zone of neutrality proclaimed in May, 1921. There would appear to be no doubt, however, that Kum Kaleli is within this latter zone, against the invasion of which warning was issued in Constantinople yesterday by the British General, Harington, commander in chief of the allied forces.

### FAIR, HIGHER TEMPERATURE TONIGHT AND TOMORROW

THE TEMPERATURES.

1 a. m.	71.1 a. m.	80
4 a. m.	64.12 noon	82
7 a. m.	70	82
9 a. m.	70 2 p. m.	84
10 a. m.	77	

Highest yesterday, 75, at 4:45 p. m.; lowest, 58, at 6:30 a. m.

Official forecast for St. Louis and vicinity: Fair and warmer tonight and tomorrow.

Missouri—Fair and warmer tonight and tomorrow.

Illinois—Fair and warmer tonight and tomorrow.

Stage of the river at 7 a. m. 2.5 feet, a rise of .3 of a foot.

Stage of the Meramec at Valley Park, 3 of a foot, no change.

### BRITISH LABOR, OPPOSED TO WAR, WANTS DISPUTE REFERRED TO THE LEAGUE

By the Associated Press. LONDON, Sept. 22.—The attitude of the British Labor party toward the present Near Eastern situation is set forth in a cable message sent today to the Australian and New Zealand laborites. The message reads: "British labor is opposed to any wars in the Near East, and believes the only way of averting it is by reference of the dispute to the League of Nations, in which Turkey, Russia and Germany should be included. "We are strongly opposed to Great Britain acting individually and demand a settlement by discussion and agreement."

### VON SANDERS DOES NOT BELIEVE WAR WILL BE OUTCOME

But if It Comes, Battle Will Be on the Brusa-Ismid Line.

By GEN. LIMAN VON SANDERS. BERLIN, Sept. 22.—Kemal undoubtedly is forming a battle line between Brusa and Ismid. I have not been in touch with him, of course, but I know what he would do. He was one of my commanders during the war and he will unquestionably follow military strategy developed during the war.

Military action is ever continuous, and in this case has been unbroken by the end of the war and the treaty of Sevres. When I handed over command of the Turkish army at Adalia at the end of the war I handed it to Kemal, and he has retained command ever since. Now that he is in position to take the field actively on a large scale again, his line of strategy will be the same.

Transport Conditions Bad. As transport conditions in Asia Minor have always been bad and are now worse, Kemal may need weeks to get his army where he wants it before Constantinople, but once there he can march into the city in a day and it will be impossible to prevent him except with large forces, which will have to meet and combat his triumphant army in Asia Minor.

They will not have enough troops to mass on the Asiatic shore in time, if it develops into real war. The British would need large forces on the European shore also, as a revolution is certain in Thrace, once Kemal is again at Ismid.

Kemal will not try another Gallipoli now. If he captures Constantinople and can again move his troops through Thrace, he might once more block the Dardanelles, but he will stay in Asia Minor until he can cross the bridge into Constantinople. It is impossible to block the Dardanelles now with the allied fleets there, and even if he is able to throw a few troops over they would be cut off from their base.

Follows German Strategy. Kemal's strategy is German strategy and German strategy always tries for the surest military end and concentrates first. He will keep an eye on Constantinople until he gets it, either by force of arms or by negotiation. If there is danger of his failing, soviet troops are ready to come to his aid.

Great Britain's appeal to her colonies was to protect the graves at Gallipoli. This works both ways. The Turks have 70,000 men at Gallipoli, and they want to get these graves out of the hands of the Christians.

I don't believe it will come to a pitched battle along the line from Brusa to Ismid, because the British dare not let it go so far, but if it does come to a battle, the fight will be there.

### C-2 DEPARTS FROM EL PASO

By the Associated Press. EL PASO, Tex., Sept. 22.—The United States Army dirigible C-2 left El Paso this morning at 6:45 o'clock in a heavy fog. Commander Strauss said it probably would not stop at Nogales, but go direct to Yuma, Ariz.

By the Associated Press. DOUGLAS, Ariz., Sept. 22.—The C-2 passed about eight miles from this city at 11:20 a. m. today.

Cigarette Displaces Peace Pipe. By the Associated Press. CHICAGO, Sept. 22.—The ready-made cigarette displaced the peace pipe at the opening yesterday of the Indian Fellowship League's annual convention here. While braves in full makeup sat about the time-honored tepees with their conical roofs, modern slang was more in evidence than the cultural eloquence of the Indians of a bygone day.

### BRITISH HOLD POSITION ON ASIA SIDE OF DARDANELLES

Refuse to Withdraw From Chanak; Reports in Constantinople That Turks Are About to Demand Evacuation of Thrace at Once or Move Favorable to This End.

### HOPED KEMAL WILL WAIT ON PARLEY

Hope Expressed in London and Paris While Efforts Are Made to Keep Kemal in Asia Until Peace Terms Are Decided Upon.

By the Associated Press. PARIS, Sept. 22.—The Near East situation seemed a little more peaceful, at least from the viewpoint of preserving allied unity, upon the resumption today of the conference between Lord Curzon and Premier Poincaré.

Disturbing reports continue to come from Constantinople, and it is reported that the Turkish Nationalists are on the point of issuing an ultimatum to the allies demanding the evacuation of Thrace within 48 hours.

The French Cabinet today decided that, in view of the refusal of the British to withdraw their forces from Chanak, on the Asiatic side of the Dardanelles, the efforts of the French Government should be directed toward preventing war between Turkey and Great Britain. To this end it was agreed immediately to send Franklin Bouillon to Smyrna.

M. Bouillon, who was the negotiator of the agreement reached at Angora between the French and the Turkish Nationalists, will urge upon Mustafa Kemal Pasha the necessity of remaining in Asia Minor until the peace terms are decided upon.

The French negotiators probably will leave today or tomorrow, and he hopes to arrive in Smyrna before the termination of the conference now in progress there between Kemal and his government and military chiefs for the purpose of deciding whether to push on in the face of the British military and naval concentration or await the results of the peace negotiations.

There is considerable anxiety in the Cabinet over the possibility of war between the British and Turkey, and in pursuance of his desire to play a role of mediator in the Near East, Premier Poincaré will exert all possible pressure to keep the Turks on the Asiatic side of the Straits until the peace terms are fixed.

The latest reports received in official circles here indicate that Kemal is trying to keep his military leaders in check, but the difficulties of the problem are admittedly great. The French, however, still feel that the Angora leader can succeed. The meeting of the Allied representatives here today to consider the Near Eastern situation is expected to fix a place for the peace conference and settle the date.

Great Britain Won't Withdraw. That Great Britain has refused categorically to withdraw her troops from Chanak and has so informed the French Government, was definitely stated in official British circles last night, in reply to a persistent report in French quarters that the British forces probably would be retired on the other side of the Straits.

The British Government has been advised by military and naval experts that the troops are in no danger of attack by the Kemalists. It is further stated that the British Navy, in co-operation with the land forces, could withstand a strenuous attack.

Continued on Page 2, Column 2.

# LABOR'S PROTEST CLEVERLY PARRIED BY LLOYD GEORGE

Premier Successfully Defends  
His Belligerent Attitude in  
Dealing With the Near  
Eastern Situation.

## DOMINIONS BALK AT MILITANT POLICY

Colonials Have Not the  
Slightest Intention of Fol-  
lowing Blindly Into War,  
Reports Show.

By JAMES M. TOLSON.  
London Correspondent of the Post-  
Dispatch and New York World.

LONDON, Sept. 22.—Premier Lloyd George is handling the awkward labor protest against his bellicose attitude about the Dardanelles with his customary cleverness.

He received the labor leaders at Downing street and heard their condemnation of the Government's attitude, followed by a demand for the withdrawal of British troops from the Asia Minor coast to the European side of the straits. Then he presented his side of the argument, stating and supported by several of his ministers, with such effect that the labor leaders requested that their remarks be not made public and they agreed to withhold the public statement of policy until after Cabinet's meeting with Parliament today.

That labor usually climbs down whenever faced by the Premier on a serious issue was further emphasized when J. H. Thomas, M. P., addressing a big meeting of railway men at Chester last night, spoke less vehemently against the Government and its Near East policy than did either he or his colleagues at the Downing street meeting.

**Situation in Dominions.**  
But Lloyd George has not been so successful in his dealings with the Dominion Governments since his appeal to them for troops for the Near East last Friday. Although it is officially stated that the Cabinet here is fully satisfied with the support of the dominions, cable reports of speeches of dominion leaders and newspaper editorials show that the dominions have not the slightest intention of following the British Government blindly into a situation likely to lead to war.

Even Premier Hughes of Australia, the most imperialistic of all the dominion leaders, has expressed satisfaction with the lack of information contained in the Prime Minister's first communication and appeal, and has asked for a more detailed statement on the British position and the reasons for the great and growing British military and naval forces in the Near East.

**Want League to Act.**  
All the dominions and India have asked Lloyd George to accept Dr. Nansen's proposal at Geneva for intervention and mediation on the part of the League of Nations. The Labor party in Australia, where labor is exceedingly strong, has called to the British Labor party, announcing their opposition to war without the consent of the Australian people.

Finance Minister Burton of South Africa thinks his country should "go slowly" at present.

The latest development here today is the intimation to the world in official quarters that the Government is seriously considering the position of Russia in regard to the Straits question is freely admitted and it is realized that if she is not consulted now she will have to be later when a situation of great embarrassment may result. Consequently it is expected that when Curzon returns from Paris, probably at the end of the week, the Cabinet will take up the question of proposing that Russia be invited to the next Turkish peace conference.

Opposition from France naturally is expected and difficulty will be caused by the fact that her presence certainly will be a step much nearer, if not tantamount, to a full diplomatic recognition of Russia.

## Recent Photograph of Turkish Chief Who Menaces the Peace of Europe

MUSTAFA KEMAL PASHA.

## France Trying to Induce Kemal Not to Attack Straits

Continued From Page One.

lack by the Turks, but, if overwhelmed by superior numbers, which is regarded as highly unlikely, the troops could easily be withdrawn to Gallipoli under cover of the naval guns.

Ferid Bey, the Nationalist Representative in Paris, informed the Associated Press last evening that the reply of the Ankara Government regarding a conference probably would come within two or three days.

### Hope in London in Allied Conference in Paris.

LONDON, Sept. 22.—Views of the Near Eastern crisis here oscillate between hope and fear, with a slight tendency in favor of the former.

The immediate peril is in the possibility that the Turkish nationalist troops will attack the British positions along the Dardanelles but, notwithstanding continued reports of their energetic military preparations, there is no serious materialized. There is confident hope that resumption of the conversations of the allied statesmen in Paris today will lead to the sending of an invitation to the Ankara government, probably tomorrow, to participate in a general conference to settle the Dardanelles question and the Turkish claims.

Through Gen. Pelle, his high commissioner in Constantinople, the French Government is reported to have communicated informally to Mustafa Kemal Pasha, the Turkish nationalist leader, the hope that he will be the delegate from Ankara to the conference, if such a meeting is arranged.

Mustafa Kemal is conferring with the Ankara cabinet in Smyrna and the result of their deliberations is awaited here as eagerly as the outcome of the Paris discussions.

The secrecy maintained yesterday concerning Prime Minister Lloyd George's talk with the labor leaders in London remains unpenetrated, but there is no reason to believe that difficulties to the Government have been increased thereby.

**Pessimism in Constantinople Follows Warlike Talk.**

By the Associated Press.  
CONSTANTINOPLE, Sept. 22.—A pessimistic view of the present situation is taken in Turkish Nationalist circles here. It was declared yesterday that, unless the Allies permit resumption of the Dardanelles question, the Allies, within 48 hours, that the question of the disposition of Thrace would be settled in favor of the Turks, and the Allies would be unable to restrain the forward march of their army.

At the same time, it was stated that the Ankara Government would agree to negotiations and suspend the movement of its troops provided the European powers furnished serious guarantees as to Thrace.

Respect for the neutrality of the straits and the zone in the Constantinople sector occupied by the allied forces depends, it is declared, on the reply to these demands.

In allied diplomatic circles last night it was reported that the Turkish Nationalists were on the point of issuing an ultimatum to the allies, demanding the evacuation of Thrace in 48 hours.

Hamid Bey visited General Harington, commander of the allied forces, yesterday and explained that what the Kemalists were seeking was the right to cross the Dardanelles, a privilege already accorded

## SECOND SESSION OF 67TH CONGRESS ADJOURNS SINE DIE

Legislation Passed in the  
Closing Minutes Signed at  
the Capitol by President  
Harding.

By the Associated Press.  
WASHINGTON, Sept. 22.—The second session of the sixty-seventh Congress adjourned today sine die. Legislation passed in the closing minutes of the session was signed at the Capitol by President Harding.

The House quit work promptly at 2 o'clock in accordance with the adjournment resolution being signed by the Senate presiding officer, a delay adjournment of that body until a few minutes later.

## WIDE RANGE OF NEW LAWS PASSED

WASHINGTON, Sept. 22.—Almost 10 months of legislative action ending today with adjournment sine die of the second session of the Sixty-seventh Congress covered a wide range, affecting the nation's international relations as well as its economic, industrial and home life.

Passage of the permanent tariff revision and soldiers' bonus bills, and the railroad and coal strikes, however, gave Congress new and unexpected problems to deal with. The naval limitation and a half dozen other conference treaties were ratified by the Senate last March after weeks of debate delaying other legislation and about as many weeks were required for conferences and legislation growing out of the two strikes, the Federal Coal Commission and coal regulation and distribution bills.

**Scores of New Laws Made.**  
Scores of other new laws were made and a dozen regular sessions of Congress were held, carrying upward of \$225,000,000, passed, the first under the new budget system and the reorganized congressional appropriation committee.

The session was marked by three personal addresses by President Harding at joint sessions, one opening the session, another one on national day, and a third on the industrial situation.

Other special features of the session included the seating of Senator Newberry, Republican, Michigan, by the Senate, Jan. 12; the receipt of the United States flag at the hands of Representative Keller, Republican, Minnesota, to impeach Attorney-General Daugherty; confirmation by the Senate of American ambassadors and ministers to Germany, Austria and Hungary; confirmation of former Senator Sutherland as Associate Justice of the Supreme Court to succeed former Justice Clark, resigned; death of Senator Penrose and Crow of Pennsylvania; resignation of William S. Kenyon from the Senate to go on the Federal bench and the long tariff debate in the Senate.

The tariff discussion began April 11 and broke all congressional records for a continuous legislative day, through daily recesses without a single adjournment from April 20 to Aug. 2. The abortive effort for Senate closure, still pending, and the row over appointment of Nat. Goldstein to be St. Louis internal revenue collector, were other features.

## BRITISH POSTS ON ASIATIC TERRITORY WELL ENTRENCHED

By a Staff Correspondent of the Manchester Guardian and the Post-Dispatch.  
LONDON, Sept. 22.—The British posts on the Asiatic territory are well entrenched and well equipped. It was emphasized, however, that whatever interest the United States may have in the ultimate disposition of the problem is confined to the necessity that free passage be maintained for British ships through these waters be assured.

Rear Admiral Bristol at Constantinople reported yesterday that his efforts to arrive at a joint plan of relief for all refugees at Smyrna with the British, Italian and French high commissioners had been delayed, as the French commissioner was absent in Smyrna, and neither the British nor the Italian commissioners had received instructions from the point.

It also was officially stated here that the allied forces had no intention of evacuating Constantinople.

"It is true that the British army is embarking the wives and families of its members," said an officer, "but this need not cause anxiety. Officers and men should not be hampered by the presence of their families."

The British forces here and at the Dardanelles are now equal in strength to those of the French. The French are expecting hourly a large force of cavalry, tanks and armored cars. Furthermore, the Atlantic fleet is sending here additional aircraft and light cruisers.

Gen. Pelle, French High Commissioner here, has returned from Smyrna, where he extended to Kemal the invitation of the allies to attend a joint conference.

While Gen. Pelle refused to discuss the visit, he said he was impressed with Kemal's frankness when he stressed his inability to hold back his troops much longer if the former control of Constantinople is not promptly conceded.

## FORMER GERMAN SECRET SERVICE AGENTS DEPORTED

Lieut. Robert Fay and Carl Koenner  
Were Convicted of Plot to Put  
Bombs on Allied Ships.

NEW YORK, Sept. 21.—Lieut. Robert Fay, member of the German Secret Service during the war, yesterday was secretly escorted from the Atlanta Penitentiary and placed aboard the Hamburg Liner Bayreuth bound for Germany.

With him was deported Carl Koenner, who is alleged to have been Fay's accomplice in a plot unearthed in 1919 when he was charged with having conspired to destroy American ships carrying supplies to the allies by placing bombs aboard, so timed that they would blow up the vessels in midocean.

In 1917 Fay and his accomplices were sentenced to eight years at Atlanta. Their release for deportation was ordered by Secretary of Labor Davis, immigration officials said.

truiser Pittsburg is being fitted out at the Philadelphia navy yard in preparation for a dash to the Levant to aid in the rescue of Jewish Armenians and Greeks. The Pittsburg will report for orders to Rear Admiral Mark L. Bristol, who is at Constantinople representing this country in relief work, and become the flagship of Rear Admiral A. T. Long, in command of the European fleet. Commander John T. G. Stapler, executive officer of the cruiser, said he would reach the Levant by Oct. 31.

## MARINE TRAFFIC SUSPENDED ABOUT CONSTANTINOPLE

By the Associated Press.  
CONSTANTINOPLE, Sept. 22.—All marine traffic between Constantinople and Black Sea, Marmara and Bosporus ports has been suspended. The British are disarming the accept passengers after 4:30 o'clock in the afternoon. Any vessel contravening this order will be fired upon by British warships.

The British are disarming the Turkish military and naval forces and making every precaution to suppress disorders and incendiaries. All British males in Constantinople will be asked to supplement the Allied police forces in the capital in the event of an uprising.

The great display of Turkish flags has disappeared, and the Turks appear to be sobering. Profound depression exists among the Greek and Armenian population of three-quarters of a million souls.

## American Participation in Dardanelles Conference Not Considered

By the Associated Press.  
WASHINGTON, Sept. 22.—Suggestions in press dispatches that Great Britain would welcome the presence of the United States in the forthcoming conference on the problem of the Dardanelles, brought the statement from administration officials yesterday that American participation is being given no consideration in Washington.

Since the United States, without having been consulted, was named in the State Department as one of the nations to share in an international administration of the Dardanelles, suggestions for American participation in the proposed peace conference and the Ankara Government are not unexpected. It was emphasized, however, that whatever interest the United States may have in the ultimate disposition of the problem is confined to the necessity that free passage be maintained for British ships through these waters be assured.

Rear Admiral Bristol at Constantinople reported yesterday that his efforts to arrive at a joint plan of relief for all refugees at Smyrna with the British, Italian and French high commissioners had been delayed, as the French commissioner was absent in Smyrna, and neither the British nor the Italian commissioners had received instructions from the point.

It also was officially stated here that the allied forces had no intention of evacuating Constantinople.

"It is true that the British army is embarking the wives and families of its members," said an officer, "but this need not cause anxiety. Officers and men should not be hampered by the presence of their families."

The British forces here and at the Dardanelles are now equal in strength to those of the French. The French are expecting hourly a large force of cavalry, tanks and armored cars. Furthermore, the Atlantic fleet is sending here additional aircraft and light cruisers.

Gen. Pelle, French High Commissioner here, has returned from Smyrna, where he extended to Kemal the invitation of the allies to attend a joint conference.

While Gen. Pelle refused to discuss the visit, he said he was impressed with Kemal's frankness when he stressed his inability to hold back his troops much longer if the former control of Constantinople is not promptly conceded.

## FORD PLANTS REOPEN AFTER WEEK'S IDLENESS

About 70,000 Employees Under  
Orders to Resume Work;  
Other Works Also Affected.

By the Associated Press.  
DETROIT, Mich., Sept. 22.—A feeling of relief pervaded business as well as labor circles here today when the Ford Motor Co. plants resumed operations after a week of idleness.

Approximately 70,000 Ford employees were under orders to begin work on their former schedules and between 30,000 and 35,000 workers of other concerns which shut down when the Ford suspension closed up their market, prepared to return to work.

All Ford units, including plants in many other cities of the country, are expected to be running on a normal schedule by Monday.

The Ford company requires about 4,000 tons a day and the fact that Edsel B. Ford, president, had contracted for that amount, indicated it was pointed out, that supplies of the proper grades would be ample.

## NEGRO BOY KILLED BY BULLET

Old Army Rifle Discharged During  
Scuffle Between Lads.

Delbert Tebb, a 16-year-old negro of 2354 Montgomery street, was killed by a bullet from an old model Springfield army rifle last night when two other negro boys, Moses White, 15, of 2425 North Jefferson avenue, and Ardell Goss, 11, of 2581 Montgomery street, engaged in a scuffle for the rifle after it had been found in a closet in the White boy's home.

The bullet struck Tebb, standing a few feet away, in the jaw and passed through his head. William Highman, stepfather of White, told police the rifle, which had been in the closet two years, had not been loaded until last Sunday, when he showed his wife how to handle it. The Tebb boy's companions are being held for the coroner's investigation.

## Naval Sham Battle Planned

By the Associated Press.  
WASHINGTON, Sept. 22.—Preparations have been practically completed for the mimic battle to be waged off the Virginia coast next week between the battleship fleet and navy airplanes in which problems involving the use of scouting and torpedo planes against a modern fleet will be worked out.

## INQUIRY BEGUN INTO 2 POLICE TRANSFERS

Pair Changed After Dispersing  
'Corner' Crowd of Youths, In-  
cluding Inspector Gerk's Son.

President Brockman of the Police Board today announced that he had begun an investigation of the transfer Tuesday of Police Sergeant Albert Stangler and Patrolman Edward Jost from the Wyoming Street Station to the Angelina Street District.

"I did not order the transfer of these officers," said Brockman, "and have started an investigation into the reasons for it."

Residents and merchants in the vicinity of Virginia avenue and Meramec street are signing petitions requesting the Board of Police Commissioners to return Sgt. Stangler and Patrolman Jost to the Wyoming Street Station and commending the officers for their work in that district.

Patrolman Jost, at the direction of Sergeant Stangler, recently dispersed a crowd of youths from the corner of Virginia avenue and Meramec street who were alleged to have been annoying persons with boisterous behavior. One of the youths was Joseph Gerk Jr., son of Police Inspector Gerk. Brockman said he did not know that this incident had anything to do with the transfer of the two officers to another district.

Chief of Police O'Brien said he transferred both his signature and seal to the Police Board for approval. The transfer of Stangler and Jost, he said, was signed by him and approved by the board, but by whose order, he declined to state.

Inspector Gerk said he had made no complaint and did not leave the order.

The transfer of a policeman from a South Side station to the Angelina Street district, in North St. Louis, is considered by the police as tantamount to banishment to less active duty.

## CIVILIAN CLUB FORMED HERE

The organization meeting of the St. Louis Civilian Club was held at the Hotel Jefferson last night with 50 business and professional men present. Phil B. Whitaker, international secretary of the Association of Civilian Clubs, explained the "building of good citizenship."

Membership is limited to one representative of each business or profession. Weekly luncheon meetings will be held. The national headquarters of the 88 Civilian clubs is at Birmingham, where the first club was formed in 1917.

about five marks (normally about \$1.50). At that time this would be about 10 loaves of bread or three pounds of butter. The same quality of bread is now selling at 100 marks a loaf and butter is retailing at 100 marks a pound. Thus the price of bread in broad today would be equivalent of 1000 marks and butter 1000 marks.

In 1914 a physician's call cost about five marks (normally about \$1.50). At that time this would be about 10 loaves of bread or three pounds of butter. The same quality of bread is now selling at 100 marks a loaf and butter is retailing at 100 marks a pound. Thus the price of bread in broad today would be equivalent of 1000 marks and butter 1000 marks.

## INFORMATION ABOUT MISSING GIRLS SOUGHT

By the Associated Press.  
DETROIT, Mich., Sept. 22.—A feeling of relief pervaded business as well as labor circles here today when the Ford Motor Co. plants resumed operations after a week of idleness.

MILDRED BINGHAM

RUTH BINGHAM

Post-Dispatch readers have been asked for information about two 14-year-old girls, Mildred Bingham and Ruth Bingham, who disappeared from their home in B.esse, Ill., Sept. 14, and were seen in Belleville, Ill., following day. The information is being sought by Mrs. Joseph Sherwood, care Fred Schoenberg, Brees, Ill.

## BARTER REPLACING USE OF MONEY IN PARTS OF GERMANY

Tuition at Some Schools Fixed  
in Terms of Rye; Eggs  
for Electricity.

By the Associated Press.  
WEIMAR, Germany, Sept. 22.—Barter is replacing the use of money in various parts of Germany as a result of the serious depreciation of the mark.

The Weimar Board governing the agricultural schools at Triptis and Markuhl has fixed the tuition for the winter term in rye instead of in money. Thuringians will pay one and one-half centners (hundredweights) for the semester, and non-residents of Thuringia, two centners.

The Saxon Thuringian Power Co. at Auma has announced that it will gladly receive instead of cash 10 eggs, three pounds of wheat flour or a quarter of a centner of potatoes for each kilowatt hour of electricity consumed.

Naumburg and Braunschweig physicians state that henceforth all rural patients will be expected to pay for medical attention in produce at its pre-war cost. The pre-war price of bread was recently fixed by Madeburg doctors as a basis of payment.

In 1914 a physician's call cost

# WERNER & HILTON'S

## Clothes for Young Men

### FALL FEATURE PRICES

**\$25 and \$30**

## GYMAN'S WIDOW MAKES STATEMENT

Husband and Choir  
Were Innocent of  
Singing — Thinks  
Gery Was Motive.

By the Associated Press.  
NEW YORK, Sept. 22.—James G. Gorman, of the Episcopal Church, who was the Evangelist of New York, N. J., whose wife was slain by the Rev. Edward Gorman, rector of the church, a townswoman, was missing when the authorities called on him, but he returned tonight, saying he had left his home to see the body of his wife.

He will be in the city tomorrow, he said, to see the body of his wife. He will be in the city tomorrow, he said, to see the body of his wife. He will be in the city tomorrow, he said, to see the body of his wife.

**Evangelical Church Union Expected.**  
By the Associated Press.  
BARRINGTON, Ill., Sept. 22.—The union of the Evangelical Church and the United Evangelical Church, a movement under way for some time, is expected to be consummated at the General Conference of the church, here in October, according to E. S. Hengst, stewardship secretary of the United Evangelical Church. Several ministers in the East Pennsylvania Conference, however, including Bishop W. F. Helt, are opposed to the union, Hengst said.

**First Better Films Meeting.**  
By the Associated Press.  
CLEVELAND, O., Sept. 22.—The first annual international convention of the National Committee for Better Films will be held here Oct. 6 and 7. The meeting will be the first of its kind to be held, it is said, and is part of a plan to form definite organizations throughout the country to study motion picture problems in relation to censorship.

## CARNIVAL SPIRIT AT PURE MILK BENEFIT

Attendance Increasing at Big Show to Increase Fund for the Babies.

A good-sized crowd attended the benefit carnival at the Show Grounds, Vandeventer and Laclede avenues, last evening, and the midway was active from early in the evening until nearly midnight, while most of the stands and concessions did a thriving business.

One of the most popular attractions on the grounds is the Athletic Arena, where Chris Jordan, well-known wrestler, meets all comers. Several local wrestlers have accepted his challenges and local fans are patronizing the exhibitions in large crowds nightly.

From a financial standpoint, the first three nights of the carnival were discouraging, due to the cool and rainy weather which kept the crowds away, but the number of persons attending increased to a gratifying extent the past two nights and if business continues as good the remaining three nights of the affair it will net a very satisfactory sum for the Milk and Ice Fund.

The shows and other attractions being offered by the Siegert & Sibley Shows, supplemented by more than a score of local concessions, are clean and the people who conduct them are real folk, well-mannered and courteous. Included in the attractions are all the features common to a carnival company, numbering a variety of freak shows and exhibits, and rides, the latter incessantly busy.

Hundreds of glaring electric lights line the midway, the music from the merry-go-round vies with the incessant humorous yells of the ballyhoosers, and the infectious carnival spirit prevails over young and old alike. The entire net rental of concession space, together with a large portion of the actual proceeds of the carnival, will go to the fund for the babies.

## PARSON AND PEER DISAGREE IN ADVICE TO BOY SCOUTS

One of Older Members of Troop Suggests Public Discussion on Subject.

By the Associated Press.  
LONDON, Sept. 22.—It would appear to be the fate of Boy Scouts the world over to have to listen to good advice from their elders. In England the boys take it good humoredly and patiently as all in the day's work.

Not to go about "making a noise and disturbing the village." (The boys had marched to church headed by bugles and drums.) Nor, he said, should anything be done on Sunday which entailed extra work for anyone. (The villagers had agreed to entertain the visiting scouts to tea.) The vicar said he never entertained anyone on Sundays; people should stay at home on Sunday and help along the activities of the church.

After the service Lord Amphill got his turn at the boys. He said that smoking had been helpful to some of the greatest men in the world. One of the wisest philosophers used to smoke like a chimney. But, of course, it wouldn't be right for small boys to smoke.

He always entertained his friends on Sunday, he said. He honored God by going to church Sunday morning, but afterward he sometimes did a bit of carpentry. The idea of Sunday, he told the boys, was that it should be a day of rest, which meant abstention from ordinary work. Manual labor on Sundays rested him rather more than anything else, because, during the week, he had to attend a good many meetings in hot, stuffy rooms.

So long as they did not disturb the peace of their villages they need have no compunctions in turning out on Sunday to pay a friendly compliment to a new troop.

One of the grownups suggested that the peer and the parson should hold a public discussion on the subject. The proceeds to be divided equally between the church and the scouts.

**Russia Trades Furs For Tools.**  
Correspondence of the Associated Press.  
MOSCOW, Aug. 25.—The Bolsheviks have begun delving into their well-advertised warehouses, reported to be bulging with furs and other articles of luxury of other days, and are now trading pelts and things for articles of necessity. Furs valued at \$1,000,000 were sent to Leipzig recently to be exchanged for machinery for the Russian leather industry. Many of the leather factories have not operated since the revolution, and efforts are now being made to re-establish the trade.

**STEER RESENTS EAR TICKLING**  
Special to the Post-Dispatch.  
AUSTIN, Minn.—William Harter, a local pearl hunter, is carrying his left arm in a sling. He is also suffering from a broken shoulder bone, three broken ribs and several tendons and muscles torn, mutilated and bruised, all because he tickled a steer's ear.

## R & G Corset

The New Elastic Side Model

THIS newly designed R and G Corset which we offer is a boon to the active woman. It allows her unhindered freedom as she moves about. Yet her figure is capably supported and held to good lines.

R & G Corsets preserve the natural, youthful lines of the figure. They will also bring back the graceful lines to the figure, that has suffered from improper corseting. (Second Floor.)

## The Girls' Store

Offers Interesting Values

EVERY schoolgirl is needing just the apparel we offer now at such moderate prices.

### Girls' School Coats at \$15.75

All-wool Polair cloth, full lined, with beaverette collars. The colors are blue, brown, and green mixtures. Sizes 6 to 10 years.

### Girls' Skirts at \$4.95

At \$5.45

THE popular all-wool "Shaker" pullover Sweater, for the athletic boy or girl; varied assortment of combination of colors, with large shawl collar. (Fourth Floor.)

## Special Purchase and Selling of 1000 Boys' 2-Pant Suits

EVERY Suit in the lot is a new Fall model, with two pairs of pants, and the materials of a good wearing quality. The lot has been divided into three price groups, and every one representing a remarkably good value.

Group 1—\$10.95

Of durable wool fabrics, strongly sewed, tailored in the newest models, suitable for dress or school wear. Serviceable coat and pants lining. Sizes 6 to 18.

Group 2—\$14.75

In this lot are conservative and sport models, of all-wool tweeds and chevrons, in all the wanted shades of gray, brown and olive. Every detail given most careful attention in making, assuring long and satisfactory service. Sizes 6 to 18.

Group 3—\$19.75

The fabrics, tailoring and linings are of a quality seldom found in boys' clothing. The newest tweeds and herringbones are represented in an almost unlimited assortment of patterns. All lined with best quality linings and tailored to hold their shape indefinitely. Sizes 8 to 18. (Fourth Floor.)

# Autumn Exposition and Sale of Misses, Girls, Boys and Infants Apparel

## Fashion Favors Misses' Modes

REMINISCENT of many periods are the styles for Fall. The Russian note is accentuated for slim, youthful figures. The Oriental influence sways the choice of fabric and design. Draped simplicity adds the perfection that belonged to ancient Greece and Rome to the beauty that is America's distinction.

**FRACKS**—their infinite variety alone is a challenge to a novelty-loving younger set. Evening modes glint and glimmer with metal and jewel trimmings. Waist lines vary from the very low one of Russian origin to the prim, tight basque effects. Draped hip effects, circular skirts, and mandarin embroideries are recent style modes. \$25 to \$125

**SUITS**—in modes a la Russe, or piquantly boxed styles, are infinitely varied in sleeves and trimmings. Embroideries glint with metal—braiding is unique—fur trimmings are more luxuriously beautiful than ever. \$29.75 to \$150

**WRAPS** are gracefully fashioned on Oriental lines, with rich embroideries, the Russian blouse and side-closing mandarin sleeves, and effective fur trimmings. \$59.75 to \$195

Misses' Shop—Third Floor

## Piquant Fashions for School Girls

RESOURCEFUL designers, taking their cue from grown-up fashions, have conceived sprightly modes that call attention to smart but charmingly youthful outlines, fascinating color combinations, lovely fabrics, and trimmings and embroideries that assume a tremendous juvenile importance.

**FRACKS** are no longer mere "dresses for little girls." From the simple little wash frock of linen or Devonshire to the irresistible dance frock with its touch of metallic trimming, color splashes its buoyant touch in embroidery, applique, or fabric contrasts. Chic models in velvet, serge, and wool crepe vie with softly draped silk crepes for favor in youthful frock affairs. \$6.95 to \$39.75

**COATS** that are boyishly tailored or have a flurry of fur about them are displaying a tendency toward usurping the center of the Fashion Stage. When nippy days send Jack Frost as a school companion, warm, sturdy coats of English blanket cloth, herringbone, and chinchilla, or beautiful coats of rich fur-trimmed fabrics will prove indispensable. \$10.75 to \$87.50

Girls' Shop—Third Floor

## Boyish Styles with the Zest of Autumn

BOYS are eager, active, filled with sudden impulses and large ambitions. The clothes they wear express the boyish characteristics—sturdy independence and manly simplicity. There is real distinction in the lines of the neatly tailored Norfolk suits for Fall—and in the smart chevrons and tweeds from which they are made. Correctly styled, too, are the novelty suits in Junior Norfolk, Middy, and Oliver Twist models. Tweed and corduroy are combined most attractively in one "real-boy" suit, while wash suits individually styled herald their arrival with popular fabrics and becoming shades. \$3 to \$25

Boys' Clothing Shop—Second Floor

## Fashion Fair in Baby Land

YEAR by year the costumes of childhood emerge a little further from the simple severity of the "all white" into the vogue of exquisitely tinted and alluringly trimmed frocks, and gay little suits and coats are cut after a diminutive pattern of older brother's and sister's. The colors in frocks are many and varied, ranging from the most delicate pastel shade to more practical colors for playtime, when the frock is called upon to be attractive without being fragile. Even the tiny slips for infants are often embroidered in color. To the afternoon and party frocks; little frills give such an airy lightness that they seem capable of floating away like thistledown, and handwork of consummate skill renders them admirable in their small perfection. Small coats in brilliant shades assure cozy warmth in chinchilla or broadcloth. Some of them are very smartly tailored, others take frank delight in displaying fur trimmings, smocking, and cording, with sometimes leggings and hats to match.

Baby Shop—Third Floor

## NOW is the time!

—When Autumn winds paint the leaves in gorgeous hues and set them shivering. Rosy little folks and sedate college misses feel the same sharp chill and the desire for the warmer and more colorful new Fall costumes.

They are here!

In great numbers and an amazing variety—lovely little garments for infants and wee tots; smart frocks and coats for youthful followers of Fashion's decree; manly suits for the small chap who has just graduated from kindergarten, and his sturdy bigger brother; fascinating new modes in frocks, wraps, and suits for the debutante.

## Items of Interest

### Juvenile Hats

The Child's Garden of Hats has never before been filled with such beguiling blooms. There are picturesque little pokes, cozy pull-ons of dappled or velvet and tailored felts, tweeds and velours that small girls love to wear during the exhilarating Fall weather. Becoming, new to rosy faces is assured by trimmings of Paisley coloring, metal flowers, ribbon blossoms, and simple bands.

Juvenile Hat Shop—Third Floor

### Misses' Millinery

Hat modes for Fall embody an Oriental splendor and trim smartness that make a poignant appeal to the young woman who follows Fall fancies. Dashing corners are adopted from past modes of France during the Empire Period. Hats rich with Bulgarian embroidery, Russian turbans, quail-penn, and felts effectively finished with quills, Paisley bands and poms, are among the many original and charming new style details launched this season. \$5 to \$25

Millinery Shop—Third Floor

### It's No Mystery

that Junior did poorly in his school work last winter. You couldn't keep your mind on your lessons either if you wore scratchy underwear that was just too heavy for an overheated classroom. Long-neck, short-sleeved, tight-fitting underwear in light weight. \$1.25 and \$1.50

Knit Underwear Shop—Third Floor

### Nippy Weather

brings all sorts of exciting outdoor fun—hiking, nature expeditions, ball games, and school sports. But a chap can't enjoy himself at all if he has to wear a heavy old overcoat that is always getting in the way. A warm slip-over or coat sweater is the right thing to wear, of course. \$6 to \$12.50

Boys' Furnishing Shop—Second Floor

### In Between

Summer breezes and winter winds there's a break Autumn flurry that paints a small girl's cheeks as well as the leaves in rosy tints. That's the time when she needs a warm sweater to wear with crisp gingham frocks. Heavy slip-on and coat sweaters. \$6.75 to \$8.75

Light-weight slip-overs. \$1.95 to \$3

Juvenile Sweater Shop—Third Floor

### Small Toes

are too often cramped into short or poorly fitted shoes. No wonder that Susan and Sonny come home cross and tired instead of a-tiptoe with eagerness to tell of school and then go dancing out to play. Shoes of soft, patent leather, and flexible sole, for boys and girls. \$3 to \$4.50

Infants' shoes. \$2 to \$3.50

Infants' and Children's Shoe Shop—Second Floor

### Tremendous Trifles

In the lives of little men and women are such things as wool hosiery, gloves, hair ribbons, and ties. Small hands are easily chapped unless gloves are worn daily during chilly weather. Striped Duplex Chambray Suede Gloves in mode and beauty. \$1.25 pair

### FORMER HAITIAN POLICE CHIEF WINS BRIDE IN TWELVE DAYS

Capt. Harold Ray Wood Met Girl Welfare Worker on Train Bound for St. Louis.

NEW YORK, Sept. 22.—After a 12-day romance, Capt. Harold Ray Wood, formerly Chief of Police in Haiti, and Miss Doris Shirley Nightingale, a welfare worker of this city, were married yesterday morning in the "Little Church Around the Corner" by the Rev. Dr. F. A. Wright, Cameron.

Capt. Wood left his home in Port au Prince, Haiti, two months ago to attend the police convention here and to study police conditions in this city. He and Miss Nightingale met on a train bound for St. Louis. Immediately after the wedding they began preparations for their departure to the West Indies, where Capt. Wood will resume his duties as legal adviser to the Gendarme d'Haiti and official interpreter for the Senate Committee.

Formerly on the staff of the Forestry (Ark.) Times Record, and a correspondent for St. Louis newspapers, Capt. Wood told Police Commissioner Wright he applied newspaper methods to his police work. He is 35 years old and the son of Willis Jesse Wood.

Miss Nightingale, born in Cape Colony, South Africa, 25 years ago, lived in this country three years.

### ALLEGED SLAYERS OF POLICEMEN REINDICTED

Flaws Were Found in Previous Indictments Against Pinkley and Merrell.

Two new indictments jointly charging Hugh Pinkley, 34 years old, of 208 Exchange avenue, East St. Louis, and Charles G. Merrell, 21, of 1129 Vandeventer avenue, with first degree murder on two counts, in connection with the killing of two St. Louis policemen, were returned yesterday by the grand jury.

Flaws in the previous indictments resulted in the continuance of the October term of the trial of Pinkley. The former indictments charged both men with being habitual criminals and with having served prison terms. Under the law this prevented the State from asking for the death penalty. Circuit Attorney Sidner then requested a continuance in the case of Pinkley, who had been granted a separate trial, so that new indictments could be returned. Merrell will be tried after Pinkley's case is finished.

The two men were charged with the killing of Patrolman Michael O'Connor of the Myoming Street Police Station, and the fatal wounding of Patrolman Bernard Mengel, April 22, when the officers attempted to prevent the robbery of the cashier in the Morris & Co. packing plant, Broadway and Pestalozzi street.

### MINE RESCUERS UNABLE TO FIND BODY OF MESSAGE AUTHOR

Forty-seventh Argonaut Victim May Have Fled to Part of Mine Not Yet Searched.

JACKSON, Cal., Sept. 22.—Rescue workers were unable yesterday to find any trace of the body of William Fessel, the only one of the 47 Argonaut mine victims whose body remains in the mine. Officials first directed the rescue crew in removing rock and dirt from a cave-in upon the 4250-foot level, where it is thought Fessel's body would be found. This was the resting place of the other bodies removed earlier. Officials were inclined to believe that when Fessel's body is recovered, some further word of the miners' fight to ward off death will be found. Fessel is the author of the miners' last message.

Since his body was not found back of the bulkhead, it is thought that he fled to some other part of the mine in an effort to find better air, or a better place for the miners to bulkhead themselves against the advance of poisonous gas. The message Fessel left was scrawled upon the slate wall of the drift in which he and 46 companions died with the flame of his carbide miners' lamp, thus:

"2 o'clock.  
"Gas getting.  
"Bad.  
"Fessel."  
Written under was:  
"40.  
"3:30."

It is believed by many that Fessel sought to escape the gas fumes after signing his name, and that the remainder of the message was written by others.

Ship Foundered in Typhoon. MANILA, Sept. 22.—The 500-ton motor ship Sange, loaded with lumber, foundered off the island of Mindoro in the recent typhoon. It was learned yesterday. Her crew of 21 was rescued, but the vessel was a total loss.

Says U. S. Hotel Charges Are High. SYDNEY, N. S. W., Aug. 25.—Senator Pearce attended the Washington Limitation of Armaments Conference as Australian representative.

Upon his return he presented a bill of expenses amounting to approximately \$42,500. Some Senators thought this was high, but Commonwealth Treasurer Bruce came forward as one with experience of hotel bills in the United States, and declared one could not live in a Washington hotel for \$250 a week unless one had no meals.

Police Alarm Brings 75 Policemen.  
Central District police were at roll  
call at headquarters at 11:05 o'clock  
today, when the alarm bell con-  
sounded with the city jail was set off.  
Twenty-five uniformed policemen  
and a half dozen detectives, who  
were at headquarters at the time,  
went to the jail. No unusual  
occurrence had occurred there, the  
police reported. An examination of  
the system caused the belief that  
the alarm resulted from crossed  
wires.

**"WOMEN OF INVISIBLE EMPIRE"**

OBTAIN A CHARTER IN TEXAS

Wives and Other Female Relatives  
of Klan Members to Be  
Organized.

AUSTIN, Tex.—An organization  
of women to be national in its scope  
and which plans to work in close  
co-operation with the Ku Klux Klan  
has just obtained a charter from the  
Secretary of State here. It is called  
the "Women of the Invisible Empire  
of America." The headquarters of  
the organization are in Dallas, but its  
incorporators are scattered over the  
State. It is authoritatively an-  
nounced that organizers will be  
placed in the field in other states  
and that the wives and other female  
relatives of members of the Ku Klux  
Klan are expected to join the new  
movement. Purposes of the organiza-  
tion, as stated in the charter, are:  
"To educate women in the science  
of government and history of the  
United States and contribute from  
funds gathered by such organization  
to orphanages and religious and sim-  
ilar deserving institutions."  
Incorporators named are: Mrs.  
William M. Powell and Mrs. Hattie  
M. Beard, Dallas; Mrs. Nora E. Ba-  
ker, Mrs. C. E. Preston, Gauze; Mrs.  
S. C. Finley, Comanche; Mrs. Kate L.  
Baker, Orange, and Mrs. Will T. J.  
well, Ector.

Freed on Bond After Shooting.  
KENNETT, Mo.—J. C. Keller, a  
farmer, living near Kennett, who  
shot and killed Marvin L. Dalton  
at Campbell, several days ago, was  
released on \$10,000 bond after his  
preliminary hearing. Keller shot  
Dalton during a quarrel.

## MEETING ON MINE WAGE SYSTEM

Parley Oct. 2 Would Devise New Wage Bargaining Plan.

By the Associated Press. CLEVELAND, O., Sept. 22.—An invitation to all bituminous coal operators of the United States to meet here, Oct. 2, with representatives of the United Mine Workers of America, to devise an entirely new machinery of wage bargaining for the central competitive field has been sent out from here. The main object is to prevent another coal strike next April.

The call was signed by John L. Lewis, president of the United Mine Workers, and Thomas K. Maher, Cleveland operator.

ARREST IS MADE  
IN INQUIRY INTO  
WOMAN'S MURDER

Pool Hall Proprietor, Who  
Identified Victim, Held  
After Anonymous Tele-  
phone Message to Police.

NOTE STRENGTHENS  
ITALIAN FEUD THEORY

"Don't Forget What You  
Have Done, Your Death Is  
Near," Reads Missive  
Found in Room.

By the Associated Press. KANSAS CITY, Mo., Sept. 22.—Frank Monteleone, pool hall owner, who last night identified the partly burned body of Rosie Cereka, 26 years old, found yesterday near North Kansas City, today was taken into custody by police. His arrest followed an anonymous telephone call to the police from a woman. The slain girl lived in rooms above Monteleone's pool hall.

The theory that Miss Cereka may have been another victim of the Restiva-Campanella feud was advanced today by police with the finding of two additional clues. One was a note scrawled in ink, found in the slain woman's room. It read:

"Don't forget what you have done. Your death is near." The note bore no signature, other than a large "X" and was undated. The other clue was information which came from Dallas, Tex., where the Restiva-Campanella feud originated, that the slain woman was the divorced wife of Mike Rastanti, a cousin of Vito Campanella Jr., who met death in the Camorra.

Had Told of Threats. Friends of Miss Cereka told police the woman frequently, in the last several weeks, confided to them that her life had been threatened and that she was in constant fear. Beyond that she refused to divulge any details, it was said.

The police, however, have not entirely abandoned the theory the girl may have been the victim of a rejected suitor who lured her to the woods, killed her and tried to burn the body with kerosene to hide evidence of the crime.

Police said they were investigating reports Rosie had been seen in company with a man last Monday morning near where the body was found. A man who said he saw the two, police declared, stated he could identify the man.

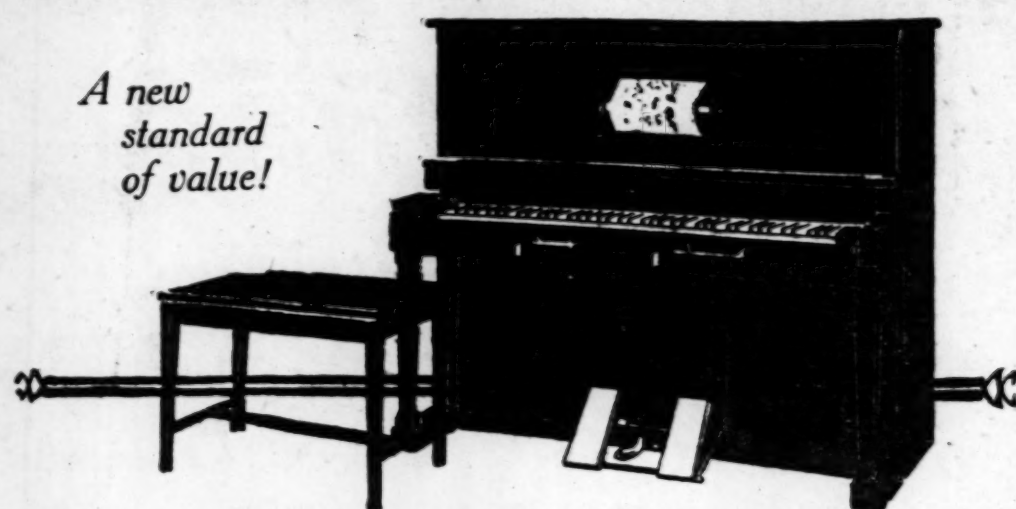

The body was found by an itinerant peddler. Half of it had been burned away in what police believe was an attempt of the murderer to hide the identity of the young woman. She had been killed by a bullet through the head. A jug, which bore evidence of having contained kerosene, was found near the body.

Dr. W. L. Wyson, Coroner of Clay County, said that the woman was not murdered before being brought into the wooded district where the body was found, declaring that dirt found on her shoes was mixed with oil from a freshly oiled road nearby.

After Monteleone identified the body at an undertaking establishment in Liberty he fell on the floor, tearing his hair and muttering in Italian. Later he told officers he believed he knew who killed the woman, but refused to say whom he suspected. He said he had kept company with her for some time prior to his marriage in January. The young woman came to Kansas City from Dallas, Tex., about five years ago, he said. She was married at the time, but later her husband left Kansas City and is believed to have returned to Texas.

Shain Woman's Divorced Husband Weeds as Body Is Found. By the Associated Press. DALLAS, Tex., Sept. 22.—Mike S. Rastanti, divorced husband of Rosie Cereka, whose partly burned body was found in North Kansas City yesterday, was married here at about the same hour the body was discovered, to Miss Thene Shell of Dallas. He said today he believed to be without foundation the opinion of Kansas City police that the woman was another victim of the Sicilian feud between the Campanella and Restiva families, which has taken at least seven lives, either in Dallas or Kansas City. She never was involved in series of vendetta murders which virtually has wiped out the two families, he declared. Rastanti operates a grocery store here owned by the widows of Vito Campanella and son, both of whom played leading roles in the feud which police say started in Sicily many years ago. He said he married Rosie Cereka in Dallas seven years ago and divorced her on statutory grounds in 1918, upon his return from the world war. The two Campanella widows also said the dead woman never had been involved in the feud.

Lawyer's Literature Seized. Copyright, 1921. LONDON, Sept. 22.—When Charles Recht, New York lawyer landed from the Aquitania at Southampton Tuesday morning Scotland Yard officials confiscated a quantity of alleged bolshevik literature in his baggage, it was learned last night. He was allowed to proceed to London after his passport had been stamped for only one month's stay in Great Britain.

## The Stuyvesant Pianola

at \$445 Two and a half years to pay.

Remember the Stuyvesant is Aeolian-made. That alone is an undisputed assurance of quality and endurance.

\$445 is a new and lower price for that good old Aeolian-made instrument, the Stuyvesant Pianola.

And at \$445 the Stuyvesant sets a new standard of value. Seek where you will, you'll not find its equal at anywhere near so low a price.

In hundreds of St. Louis homes you'll find Stuyvesant Pianolas that, after

ten or fifteen years of service, are still cherished for their splendid smoothness of action and sweetness of tone.

The Stuyvesant you buy now has the same enduring quality. Nothing has been changed but the price. And the price is only \$445. And you can have two and a half years in which to pay it.

## To Keep Hair Curly, Wavy and Beautiful

There is how your hair can be curled, wavy, easily and harmoniously, to "stay curled." Before doing it, use a little liquid aluminate with a clean toothbrush. In three hours you will have the prettiest curls and waves—and they will look and feel so natural you'll never think of doing without aluminate thereafter. You won't be troubled any more with hair stringing around your face—with burnt, uneven ends, nor with that dull, dead appearance. The hair, whether long or bobbed, will remain in curl ever so long. Many druggists, of course, supply with liquid aluminate, and a few will last you a long time. It is a hair styling and setting, and is really a beautiful thing to use. It is doubly useful because of its serving as a beautiful dressing for the hair.

## RETIREMENT OF FIREMEN AT 63 TO BE RECOMMENDED

Board of Public Service to Include Plan in Report on Its Investigation After Underwriters' Criticism.

The Board of Public Service, which has been making an inquiry into the Fire Department, will recommend to Mayor Kiel that members of the department be required to take physical examinations when they reach the age of 63, and that those not passing such an examination be retired.

The board has delayed presenting this report, and will not press the matter now, because it is feared that the retiring of a number of men, at one time would create demands on the Firemen's Pension Fund which the fund's income is not sufficient to meet. The board believes some measure for increasing the fund should be taken when the retirement rule is instituted.

The Board of Public Service began its inquiry into the department after the Board of Fire Underwriters, six months ago, made a report criticizing the department in several particulars. The underwriters' criticisms were, that the department was undermanned, that there were many old men in the service, that officers did not receive due respect from men, and that many of the men were unfamiliar with the equipment, causing them to be slow in answering calls.

Inquiry has shown that there are perhaps 200 men, out of the 841 now in the department, who are between 60 and 65 years of age. Chief Parker is 60. The oldest men in the department have been placed in watchmen's positions as far as possible, but there are not enough such positions for all the older men.

The Board of Public Service has reached conclusions which are favorable to the Fire Department on the whole, though they coincide with some of the statements of the underwriters. They agree with the underwriters that a training school, for the purpose of making all the firemen thoroughly familiar with all the equipment used, should be instituted. At present, it has been found, some of the older firemen are not as familiar with the motor apparatus as they should be, and some appear to be still "thinking in terms of horse-drawn apparatus." Such a training school has been asked for by Chief Parker.

The Board of Public Service also agrees with the underwriters that the department is undermanned, especially in downtown houses, and it says that in the high-value district the companies should be increased from six and seven to eight and nine men, and that there should be some increase in other districts, making an addition of 175 men to the department. This would add \$150,000 a year to the payroll.

The Board has made a number of tests of the response to alarms, and its report on these tests is favorable, as to the promptness of response. At the same time, it has noted some instances of seeming unfamiliarity with equipment, and some individual slowness among the older men.

The inquiry has shown an improved condition as to respect of men in the department toward their officers. The Board of Public Service believes an improvement may have resulted from the criticism made by the underwriters.

Firemen retired for physical disability receive \$50 a month from the pension fund which is also drawn on for widows' pensions. There is about \$118,000 in the fund now, and its sources of support are assessments on the firemen, 3 per cent of the general license taxes and one-half of the license taxes paid by fire insurance companies.

**FORMER CANDIDATE CONVICTED OF RECEIVING STOLEN PROPERTY**  
James McDermott, Aspirant to Republican Nomination for Legislature, Fined \$50  
James McDermott, of 3820 Page boulevard, who was a candidate for the Republican nomination for the Legislature in the Fourth District, was found guilty of receiving stolen property and fined \$50 and costs by Provisional Judge Jacob Lashly in the Court of Criminal Correction today.

The case was that of a bicycle stolen from Vernon Goodall, 15 years old, of 4125 Kensington avenue, and later sold to another boy by McDermott, testimony showed. McDermott denied knowing the bicycle was stolen when he bought it. Similar charges brought by a third boy were dismissed by Judge Lashly, who took the cases under advisement Wednesday.

**CITIZENSHIP BILL APPROVED**  
Measure Fulfills Rights of Women on With Those of Men.  
By the Associated Press.  
WASHINGTON, Sept. 22.—The Cable bill, designed to equalize naturalization and citizenship rights of women with those of men, was approved today by President Harding.

Under its provisions an American woman will not lose her United States citizenship on marriage to an alien and an alien woman will be required to qualify for naturalization independently of her husband.

## Girl Under Indictment Describes Her Actions in Connection With Bergen Killing

### Angry Over Trick That Caused Her Arrest, She Says

Alice Thornton's Story to Husband of Other Woman Led to Shooting of Stunt Movie Actor in Home of Slayer.

Specs. to the Post-Dispatch.  
NEW YORK, Sept. 21.—"Discouraged? Worried? Not at all. Why should I be? I am innocent of any crime or any thought of any crime. But I am angry over the fact of my arrest and the trick by which it was brought about."

So declared Alice Thornton, under arrest at Hackensack, the county seat of Bergen County, New Jersey, under an indictment for murder in the first degree because of her participation in the events which led up to the fatal shooting of Jack Bergen, stunt movie actor, by George D. Cline, a location manager for films, in Cline's home at Edgewater, N. J., the night of Aug. 25, last.

Alice Thornton is the girl who told Cline of the association between Bergen and Mrs. Cline, which was given by Cline in his second story of the crime as the motive which prompted him to force Bergen to a duel in a bedroom.

Not Changed Much.

Alice Thornton has not changed much in appearance as a result of her imprisonment. Her bobbed hair, curly at the time of the shooting, has straightened out, detracting somewhat from her attractiveness. She also has left off the earrings and neck beads she wore when at liberty. In her cell yesterday she was dressed in a simple black crepe de chine dress and wore no ornaments.

Miss Thornton's protest against her arrest is based on her claim that she had nothing whatever to do with the shooting, had not the slightest thought when she went to the Cline home on the fatal night that there would be any serious trouble, had nothing whatever to do with inducing Bergen to go to Edgewater that night and after the crime had occurred.

ALICE THORNTON.

Insists That She Did Not Lure Bergen to Place, but Went in Response to Latter's Summons.

She said she had no information about it. Her protest against the "trick" by which she was placed under arrest is based on the statement that she had been informed the prosecutor wished to see her in Hackensack to take her statement, and that as soon as she had reached his office and had admitted her identity she was placed under arrest by Detective Nathan H. Allyn.

"I blame the newspapers, trying to make a mystery and a sensation out of me, for my present plight," she said, "yet it is a predicament into which any girl might inadvertently get herself. I knew Jack Bergen for years. I lived in the same neighborhood with him and saw a great deal of him when we were growing up."

Denies Hectic Parties.

"I went to public school on 72d, at 166th street and Lexington avenue, which is near the Bergen home. When I grew up I went out with Jack quite a lot. I knew his mother and his brother and father. He took me to dances, shows and other places. I was always home at 12 o'clock, and had to be, as that was the condition my people imposed on me, and that telling them where I was going, before I was permitted to go out at all. His conduct toward me was always respectful. There have been insinuations that he took me to rather hectic parties and to places where there was much drinking, but that is absolutely untrue."

"While it is true we were not engaged, still there was a possibility of an engagement which may not have been reciprocated by him. I never quarreled with him. Once, when I heard he was married, I got angry because I believed it and felt that he had no right to be taking me around if he were a married man. He told me he had contracted a youthful marriage, but that his wife's people quickly had the marriage annulled. I had no reason to question his explanation and continued to go around with him."

"It was through him I met the Clines, which was a natural enough, because of the association of the two men with motion pictures. I met Mr. Cline first, but never met Mrs. Cline until the day of the episode of which I afterward told Mr. Cline. That was at the beginning of June and it was the first time I had ever been in the Cline home. Mrs. Cline's brother, Charlie Scullion, was there, too. We were playing spin the bottle. After we had been there some time, Mrs. Cline left the room and went to the kitchen and in a few moments Jack followed her. Then I heard footsteps going upstairs."

Near Discrepancy.

And here comes the nearest approach to a discrepancy in Alice Thornton's story as the same reporter has heard her tell it five times. In previous talks she has said she had followed the couple upstairs and had seen them together, merely smiling in an affirmative way without speaking when she was asked if this were the case. "This time she said for the first time she did not follow them upstairs, but had remained talking with Charlie Scullion in the parlor until the return of Mrs. Cline and Bergen."

"After that, naturally, I was cool to Jack," she continued, "but I had no intention of meddling in the affairs of the Clines until that night."

Continued on Next Page.

## \$100,000 Canned Goods Sale

To be retailed at wholesale prices at the REMLEY-MOLL STORES. This gives everyone in St. Louis and its surrounding territory an opportunity to lay in their supply. From all indications prices will be higher. We suggest to fill your pantries to their fullest extent. Sale starts Saturday morning. Canned goods prices good for one week at all three stores.

**YOUR ORDERS SHIPPED WITHIN 24 HOURS**

We announce a new perfected service to you. After 60 days' work and study, originating and testing new systems and employing experts, we have perfected a new system that makes certain a very quick and satisfactory service to you. Every order that comes to A. MOLL GROC. CO. this season will actually be shipped to you and on the road to you the day we receive it. Lower prices, better merchandise, and now a new service. True it is, indeed, that A. MOLL GROCERY CO., the oldest grocery house in this section of the country, is today the most progressive. All Mail Orders should be addressed to our wholesale department, 7th and Franklin.

# DRY AGENTS BURN BUILDING IN WHICH STILL IS FOUND

Liquor Plant Discovered in Shed in  
Rayne on Farm in County;  
Four Men Arrested.

Three Italians and William Krussel, a farmer, were arrested in a raid by prohibition enforcement officers yesterday afternoon on the latter's farm on Hall's Ferry road, St. Louis County, in which the Italians were found operating a still in a newly built shed in a sheltered place some distance from the farm house.

The still, a quantity of whisky and three vats containing about 15,000 gallons of mash were found in the shack. The building, a frame structure, was burned, and the still and mash destroyed. Krussel and the Italians, who gave their names as Joseph Russo and Philip Cerello, both of 1604 North Eleventh street, were charged with possession of a still and manufacture of liquor, and released on bond.

In a raid on the saloon of Legard and Nattbrock, at Ford and Vulcan roads, prohibition enforcement officers found 129 gallons of bottled "home brew" in an adjoining shed. Nattbrock was ordered to answer a charge of possessing the liquor.

Sedalia Elks Building Sold.  
Sedalia, Mo., Sept. 22.—The Southwestern Bell Telephone Co. yesterday purchased the three-story Elks building for \$50,000 in which its exchange has been located since 1906. The Elks clubrooms, on the third floor, are retained under lease. The Elks plan to erect a new building.

# MAN WANTED HERE FOR MURDER OF GIRL, HELD IN IDAHO

Fred Fivuzzi, Rejected Suitor,  
Who Shot Miss Emma  
Meyer, Captured Through  
Decoy Letter.

How St. Louis detectives, by means of a decoy letter, traced and effected the arrest in Idaho of a man wanted in St. Louis for murder was disclosed today when a telegram was received from the Sheriff at Sand Point, Idaho, stating that a man giving his name as Joseph Jordan and answering the description of Fred Fivuzzi, alias Fields, was under arrest there.

The Sheriff requested that an officer with extradition papers be sent for the prisoner, and Detective Sergeant Girard of the Homicide Squad will depart today for Sand Point. Fivuzzi shot Miss Emma Meyer, 29 years old, of 2755 Shenandoah avenue, the night of Aug. 10, and she died two days later from a bullet that had lodged in her spine. Her escort, Albert Turner, 2603 Shenandoah avenue, was also shot by Fivuzzi, but has recovered.

The detectives sent Fivuzzi's picture and a description of him to the Sheriff of the county in which is Bonner's Ferry, and of which Sand Point is the county seat. The Sheriff was informed of the situation and told that a decoy letter was being sent to the return address given by "Jordan." He was told to observe if the man who called for the letter resembled the picture and answered the description of Fivuzzi, and if so to arrest him.

The plan evidently worked out as intended, for the Sheriff's telegram today said he had arrested the man and that "Jordan" or Fivuzzi would not return without extradition papers.

# GIRL DESCRIBES ACTION IN CONNECTION WITH BERGEN KILLING

Continued From Preceding Page.

at Cella's restaurant when I was dancing with Mr. Cline and he kept nagging me to be more friendly with Jack, whom he continued to extol until I lost patience and told him he was the last man in the world who ought to speak well of Jack Bergen. He asked me why, and I told him. He didn't show any signs of anger, and I thought he didn't believe me, but I said no more about it. This was before they all went to Saranac Lake. Of course, I did not go up there, and know nothing of what happened there. And though I didn't see the Clines often, when I did they were very affectionate.

Saw No Exhibition of Anger.

At no time did I ever see Mr. Cline show any anger over the matter until the night of the killing, and even on that night, when Jack first came, Cline was not angry. He began the conversation calmly and I am sure the matter would have ended with no more violence than Bergen being ordered to get out of the house and to keep away from Mrs. Cline, if Bergen had not used that awful word in referring to Mrs. Cline and "all women." That remark seemed to make Cline wild and he got the gun and demanded that Bergen go upstairs and fight it out like a man.

"Some newspapers have insinuated that I lured Bergen to the Cline home the night he was killed. You can see from what I have told you how impossible that was. Bergen had called me up weeks before and upbraided me for telling Cline I gathered from his conversation that Cline had accused him and that he had denied it. I thought I was being summoned to Edgewater to repeat the story before Bergen would refute this denial, and it would have appeared cowardly and would make it appear that I had lied in the first place had I refused to go.

"Even when I knew Cline had sent for Bergen and me to face each other over the story, I never dreamed it would culminate in one of the men being killed. Cline had shown so little anger over the thing during the two months which had elapsed since I told him of it that I never dreamed he had worked himself up to such a pitch, and as I said, in my opinion the culminating point was the vile epithet he used in referring to Mrs. Cline and all women.

"I have been told that one of the reasons they are trying to make me share the responsibility is that I held Mrs. Cline and prevented her from interfering when she might have prevented the tragedy. Mrs. Cline could no more have prevented the tragedy than a fly. What could either she or I do with these two big men, one of them armed and in a rage? I held Mrs. Cline to save her from possible injury. It was her husband who had the gun, and how was I to know him that in his state of mind he might fire at her, too? As a matter of fact, I don't think in those feverish moments I had any well defined ideas. I just grabbed Mrs. Cline and held on to her."

Happy Thoughts.  
"You have been accused," said the reporter, "of having acted in a heartless manner in not following Bergen out to see if you could help him and of having passed him while he was lying on the road outside without offering help."

"When Bergen came running downstairs and out the door, neither Mrs. Cline nor I knew he had been shot," the young woman explained. "There had been one

shot, and Bergen had run out of the house. Mr. Cline did not come down immediately and my first thought was that he was shot. When he came down I ran from the house, and when I saw Bergen on the road help had already come to him. And I was in far too much of a panic to think of anything but getting home as quickly as possible.

Then Miss Thornton turned to happier thoughts. She let her mind leap forward to the time she would be free of her trouble, when she could have a chance to forget it. "What will you do when you get out?"—and Alice Thornton speaks as though she regarded her trial as a mere formality leading to complete exoneratation. "Is there any chance

# Falls Dead in Home.

Special to the Post-Dispatch.

EFFINGHAM, Ill., Sept. 22.—William C. Bruns, a horse buyer, returning after taking a load of animals to St. Louis, fell dead in his home here Wednesday night as a result of heart trouble.

# BARON CHARGED WITH THEFT

French Nobleman Accused of Taking Artwork's Antiquities.

PARIS, Sept. 22.—Accused of stealing an automobile belonging to Mlle. Parys, a popular actress in Paris, Baron de Bayencourt has been arrested with his alleged accomplice, a man named Jense, who is widely known in Montmartre.

The Baron is a director in a taxi company, and the automobile, after it had been stolen, was taken to the company's garage. Bayencourt then drove it to his chateau in Eurie. Police searched his home in Paris and discovered a quantity of securities

and valuables which were obtained in a number of robberies committed in Paris and Nimes.

# Forged Swiss Notes Found.

Copyright, 1922.

LONDON, Sept. 22.—Waterlow & Sons, engravers, were notified by the Swiss Government yesterday that 50 franc notes printed here, belonging to a series not yet issued, have been found circulating in Switzerland with the forged signature of a Swiss treasury official. This series, which was printed in April, 1921, is still in a vault here awaiting orders for delivery. The forged notes must have been stolen during the printing, officials of the firm declare.

### MILITIA AND ARMY LEADERS TO CONFER ON GUARD ALLOTMENTS

Five National Guard Officers With War Records to Participate in Deliberations.

By the Associated Press.  
WASHINGTON, Sept. 21. — Five National Guard officers with World War experience have been designated by the War Department to discuss with army executives allotments of National Guard troops to the various States. The officers are Brigadier-General Milton A. Eckfort, Adjutant-General of Maryland; Brigadier-General Leslie Kincaid, Adjutant-General of New York; Colonel F. M. Rumbold, former Adjutant-General of Missouri, and now on duty at the War Department;

Lieutenant Colonel F. P. Schoonmaker of Pennsylvania and Major-General Milton J. Foreman, of Illinois, who is to command the 33d Division (National Guard) of the new Army of the United States, which is not as yet completely organized.

### Woman Held After Shooting.

By the Associated Press.  
FORT SMITH, Ark., Sept. 22. — Following the fatal shooting of Mrs. Nancy Parker, 28 years old, at her home, near Stigler, Ok., 40 miles west of here, Wednesday night, officers yesterday arrested Mrs. Julia Spears, 40, a neighbor, and lodged her in jail at Stigler, pending an investigation. No cause for the shooting has been discovered by the officers.

### SHORTAGE OF ANTHRACITE COAL

Prices Will Be Practically Same as Last Winter, It Is Said.  
By the Associated Press.  
PHILADELPHIA, Sept. 22. — Only 50 per cent of the normal supply of domestic sizes of anthracite coal will be available this winter, but prices will be practically the same as last winter. It was announced yesterday at a conference of fuel administrators representing all the hard coal consuming states and Canada. To overcome this shortage in supply a campaign for the education of the public in the use of the smaller sizes of anthracite, known as buckwheat, of which there is an abundance, is to be inaugurated throughout the country.

ST. LOUIS, FRIDAY EVENING, SEPTEMBER 22, 1922

PAGES 19-22

## EPISCOPAL BISHOPS URGE VOICE IN CONTROL OF INDUSTRY FOR WORKERS

Body at Portland Convention Also Affirms That  
Nations Should Associate Permanently  
for World Peace.

By the Associated Press.  
PORTLAND, Ore., Sept. 22.—Unanimous approval was voted late yesterday by the House of Bishops of the Protestant Episcopal Church in the United States to declarations framed by its social service committee that "the worker who invests his life and that of his family in industry must have, along with the capitalist who invests his money, some voice in the control of the industry which determines the conditions of his working and his living."

The declarations said "there must be subsequently a sane and reasonable democracy in industry. The workers of today are rightly seeking self-expression and self-determination in industry as well as a livelihood from industry."

Warless World Wanted.

The bishops also unanimously affirmed that "all nations should associate themselves permanently for world peace and good will. We believe in a warless world and dedicate ourselves to its achievement."

Bishop Chauncey Brewster of the Diocese of Connecticut presented the report.

Other declarations of the social service platform are:

"Human rights must take precedence of property rights. Therefore, a minimum subsistence wage, and, if possible, a comfort and saving wage, must be the first charge on the industry, and the public as well as employers must be willing to pay respectively their proportionate shares of this charge."

"Co-operation for the common service must be substituted for the present competition for private advantage as the paramount motive and end of all industry."

The report declared that while the church could not commit itself to any particular program of social reform it could "urge upon her members, and particularly her clergy, the earnest, careful and impartial study of the whole industrial problem in the light of the teachings of Christ, with special attention to the real spiritual significance of the world-wide labor movement which is so often dumb and inarticulate and which generally finds such inadequate and often distorted interpretation in our public press and current literature."

Ministry of Healing Recognized.

The Episcopal Church in the United States was formally placed on record in recognition of the ministry of healing by the action of the House of Bishops last night, the House of Deputies already having taken action along the same line at the general convention.

The bishops' action authorizes clergy and lay members, who believe they possess powers of healing, to prepare themselves "by care and prayer and theological and medical

## CONGRESS GOING HOME WEARIED AND APPREHENSIVE

Its Record Is Not Easily Explained to Average Voter and Is More Easily Picked to Pieces by Critics.

### BUDGET MARKS NEW EPOCH IN FINANCE

It Is Classed as Constructive Measure—Attitude Toward Strikes Has Caused Political Damage.

By DAVID LAWRENCE,  
Special Washington Correspondent  
of the Post-Dispatch.

WASHINGTON, Sept. 22.—Congress is going home wearied and apprehensive. What will people say? How will they vote on Nov. 7? Many a member of the Senate and House would give a good deal to know for the record is not easily explained to the average voter and it is more easily picked to pieces by critics.

Congress was convened in special session originally to pass the tariff and revenue bills. This has been done at last. The bonus bill was passed but failed to become law over the President's veto. Tax measures are never popular and the reduction of the burden was so slight as to be politically little of an asset. As for the tariff it will not be in full operation soon enough to hurt or help from a political viewpoint. What does it leave, therefore, as the outstanding achievement?

New Epoch in Finance.

Though budget explanation is apt to be spectacular or simple of explanation, it stands out as the beginning of an epoch in government finance. The Democrats helped pass it and will not permit all the credit to go to their Republican brethren, but the fact remains that a budget system has been established under a Republican administration and the key to lower taxation lies in the balancing of receipts against expenditures. There have been some efforts, more or less successful, to ignore the budget. The passage of the bonus bill was outside the budget, and the latter would have been dealt a body blow if President Harding hadn't killed the measure for the time being at least.

Thus far the tendency to ignore the budget has not cost the Government very much and the truth of the matter is everybody expected Congress to ignore it much more than has been the case. The budget is not yet beneficial because its principles have not been firmly entrenched, but the Republicans can count it as an asset of the present Congress and for the indefinite future, too, until it does break down. Unquestionably the budget ranks with the reform of the nation's currency system as a constructive measure.

Industrial Problems.

Passing from the achievements to the sins of omission, most politicians will agree that the biggest issue before the country has been the industrial situation—the problems involved in the shopmen's and miners' strikes. Few will venture to assess the political damage done by the attitude of the Government toward the strike and the industrial situation. The injunction proceedings in Chicago are themselves an issue. Whether strikes on railroads shall be prohibited, whether the administration should have taken a hand in the steel strike earlier than it did, whether Mr. Harding could have compelled a settlement of the shopmen's strike—all these questions will be discussed on the stump and the majority of voters will as usual have made up their minds long before election as to where the responsibility lies.

Prosperity, or the lack of it, is always an issue. Members of Congress are leaving here with a feeling that business is on the upward trend. They would have felt more certain of this if Henry Ford hadn't announced a shutdown, but they look hopefully at the increases in wages being paid by the steel corporation as an offset for political purposes. Here and there minor pieces of legislation have been passed but it is a fact that the situation in Europe with respect to reparations has been ignored through the failure of Congress to take Mr. Harding's hint that he wanted America represented on the Reparations Commission, and with the exception of a fact-finding commission on coal and arrangements for delivery of delivery, Congress has not taken any steps by legislation to prevent future strikes.

Reed Made Impression.

President Harding's position as party leader is stronger than it was with Congress. His veto of the bonus has stilled many tongues. It had been said that he would waver and finally sign the bill. His stiff-necked attitude has made him more respected even by the bonus foes, though Senator Reed of Missouri, Democrat, made a deep impression with his argument that if, as Mr. Harding says, the bonus is class legislation.

## NAMING OF NEW FEDERAL JUDGE WAITS ON INQUIRY

President Orders Investigation Into Qualifications of Republican Lawyers Who Are Seeking Position.

An inquiry into the qualifications of the several Republican lawyers who are seeking appointment to the newly-created Federal Judgeship in St. Louis has been ordered by President Harding through Attorney-General Daugherty, according to dispatches from Washington to the Post-Dispatch. The investigation will be made by Assistant Attorney-General Rush L. Holland.

St. Louis Republicans have been confident for several months that they would get the judgeship. The new Federal Judgeship in St. Louis has been ordered by President Harding through Attorney-General Daugherty, according to dispatches from Washington to the Post-Dispatch. The investigation will be made by Assistant Attorney-General Rush L. Holland.

St. Louis Republicans have been confident for several months that they would get the judgeship. The investigation will be made by Assistant Attorney-General Rush L. Holland.

## INSTRUCTIONS FOR VOTING THE NEW BLANKET BALLOT

Sheets Containing Names of All Candidates to Take Place of Separate Ribbon Ballots at Election in November.

REPUBLICAN.	DEMOCRATIC.	SOCIALIST.
For Senator in Congress— R. R. HENNING For State Superintendent of Schools— SAM. H. HARRIS For Judge of Supreme Court— W. M. H. HARRIS	For Senator in Congress— JAMES. DEER For State Superintendent of Schools— CHARLES. LEE For Judge of Supreme Court— W. M. H. HARRIS	For Senator in Congress— W. M. H. HARRIS For State Superintendent of Schools— JOHN. GARNER For Judge of Supreme Court— W. M. H. HARRIS

THE new blanket ballot, to be used for the first time in the State, congressional and local election, Nov. 7, will require advance study by voters for its proper use.

The blanket ballot, containing the names of the candidates of all parties, will take the place of the separate ribbon ballots, each containing the names of the candidates of one party, which have been used in past elections.

As shown by an example printed herewith, the blanket ballot will have the names of the three parties in parallel columns, with a circle under each party name.

Taking the Republican ticket as an example, the voter who wishes to vote a straight Republican ticket may do so by making a cross in the circle under the name "Republican." A ballot so marked, and without other marks, will count for all the Republican candidates.

How to Vote Mixed Ticket.

At the left of each candidate's name a small square is printed. If a voter who has made a cross in the Republican circle wishes to vote for one of the Democratic candidates, he uses the small square to write in the name of the Democratic candidate. In this case the printed name will be scratched, and the other written in beneath it.

Above each party name, an emblem will appear. The Republican emblem will be the figure of an elephant, this being provided in the Republican state platform, adopted last week in Springfield. The election board has not been notified as to the Democratic and Socialist emblems, which presumably will be selected by the party committees.

## PRESIDENT NOW HAS BROAD POWERS IN INCREASING OR DECREASING TARIFF RATES

New Authority Will Be Exercised Through  
Tariff Commission, Which Will Rank Almost  
With Interstate Commerce Body.

By the Associated Press.  
WASHINGTON, Sept. 22.—American tariff making will enter a new phase today with the coming into force of the Tariff Act of 1922. For the first time in history Congress has delegated part of its authority over taxes at the customs houses, conferring upon the President broad powers to increase or decrease rates and to change from foreign to American valuation as the basis of assessing ad valorem duties on imports.

The Tariff Commission, created during the administration of President Wilson, will be the agency through which President Harding will exercise his new authority and present expectations are that its work will rank almost in importance with that of the Interstate Commerce Commission.

Applications from manufacturers, importers or other interested persons for changes in rates of valuation basis may be made to either the President or the commission, but such as were addressed to the executive would be referred to the commission.

Aside from inquiring into questions of rates, upon the commission will devolve the work of ascertaining whether American commerce and trade is being discriminated against in foreign countries and making recommendations as to means of meeting situations where discrimination is determined to exist.

Ship Diverted to Texas Port to Save \$71,000 in Import Duty.

GALVESTON, Tex., Sept. 22.—Beating the new tariff by several hours, the steamship Cauto came into port from Tampico this afternoon with a large cargo of lead bars, saving \$71,000 in import duty on the cargo. The vessel was destined for New York, but the American Metal Co. of New York, which has her under charter, ordered her diverted to Galveston when it was found she could not make New York before the President signed the new tariff bill.

Delay of Six Minutes Would Have Cost Cargo Owners \$86,400.

By the Associated Press.  
MOBILE, Ala., Sept. 22.—The British steamer Westra, arriving in port from Rio de Janeiro, Brazil, with 7200 tons of manganese ore, saved the owners of the cargo a total of \$86,400 when she entered through the local customs house yesterday afternoon. The Westra entered just five minutes before the closing of the local customs house Wednesday, according to J. S. Taylor of R. V. & J. S. Taylor, agents for the Westra.

American Tariff Is Criticized by the London Times.

LONDON, Sept. 22.—The new American tariff bill cannot fail to accentuate the embarrassment of the United States by the country's overwhelming creditor position.

## TARIFF WILL COST EACH AMERICAN FAMILY AN AVERAGE OF \$160 A YEAR

Special to the Post-Dispatch.  
WASHINGTON, Sept. 22.—VERY American family will pay an average of \$160 a year more for clothes, food and other necessities because of the Fordney-McCumber tariff bill, Treasury experts said yesterday. Although the total cost of living will be increased by \$4,000,000,000, the bill carries a provision authorizing the President to increase the rates 50 per cent if he desires. Of the total protection of \$4,000,000,000, only \$20,000,000 will be paid into the Treasury and the rest will go to the favored interests, according to the experts.

The following is the estimated amount of protection on principal products: Cement, pottery, chinaware, \$214,000,000; steel and other metals, \$1,148,000,000; wood, furniture, lumber, \$377,000,000; sugar, confectionery, \$333,000,000; tobacco, \$428,000,000; food, agricultural products, \$1,233,000,000; cotton goods, \$587,000,000; wool clothing, \$760,000,000; silk and silk goods, \$326,000,000.

## JAPANESE RECOGNITION OF SOVIET WITHHELD

Washington Watches Chang  
Chun Negotiations With Interest Because of Russians' Effort.

By the Associated Press.  
WASHINGTON, Sept. 22.—The negotiations at Chang Chun between the Japanese and representatives of the Far Eastern republic and the Moscow Soviet government have been followed with much interest here because of indications that the Russian groups are making every effort to obtain either directly or indirectly full political recognition of the Soviet government by Japan. These attempts seem to have failed.

Nothing has yet been heard officially of the deadlock resulting from the Russian demand for immediate withdrawal of all Japanese troops from Siberia, including the northern portion of Saghalien Island. In Japanese circles it is said the instructions of the Japanese negotiators did not empower them to discuss the Saghalien question, and it is expected here the Japanese Government will not consent to withdrawal from the island until some agreement has been made for compensation in connection with the killing of Japanese civilians in Nikolai two years ago.

A further complication is foreseen in connection with the prime minister of the Japanese to withdraw from other nations of Eastern Siberia by Oct. 1. This movement was undertaken with reference to the negotiations with the Russians and in justification of pledges given at the Washington conference and already many Japanese soldiers have been expected to be regarded as a branch of the Washington pledge. It is reported that while to withdraw all of the Japanese forces on the mainland of Manchuria might place the Japanese

## WRITINGS ATTRIBUTED TO IRISH PRISONER URGE COMMUNISM

Liam Mellows Said to Advocate  
State Industrial Control and  
Land Seizures.

By the Associated Press.  
DUBLIN, Sept. 22.—The Provisional Government has published documents allegedly written by Liam Mellows, who now is in jail, having been captured when the Four Courts Building was taken by the national forces in June. The writings advocate a program on communistic lines for the Republic. The documents say too much reliance is put on the gun.

The Government, commenting on the documents, says Mellows' plan is the purchase of votes by bribing men having no property.

The documents contemplate state control of all industry and of the banks, railways and canals by the Republican Government and the seizure of the lands of the aristocracy and their division for the benefit of the nation.

Hughes Return Expected Tomorrow.

WASHINGTON, Sept. 22.—The battleship Maryland, on which Secretary Hughes and members of the Brazilian Centennial Commission are returning from Rio, passed Bermuda at 10 o'clock last night and was then expected to arrive at Washington tomorrow morning, said a wireless dispatch from the battleship early today to the Navy Department.

## INCREASE IN SUPREME COURT JUDGES FAVORED

Proposal, Which Also Affects  
St. Louis Court of Appeals,  
Is Advanced.

By the Associated Press.  
JEFFERSON CITY, Sept. 22.—The Constitution convention in the committee of the whole late yesterday agreed to the proposal providing for an increase in the number of Judges of the State Supreme Court from seven to nine and increasing the number of Judges of the St. Louis Court of Appeals from three to six.

Under the proposal, the six Commissioners of the Supreme Court and three Commissioners of the St. Louis Court of Appeals are abolished. An effort by John H. Lucas of Kansas City to abolish the three courts of appeals at St. Louis, Kansas City and Springfield with the subsequent increase in the number of Judges of the Supreme Court from seven to 16, was defeated after a three-hour debate.

Lucas declared his plan of abolishing the Courts of Appeals and providing for only one Appellate Court with 16 members would mean an annual saving of more than \$75,000 to the State. Under his proposed amendments the Supreme Court would be divided into five divisions with three members each with a Chief Justice.

Charles D. Morris of St. Joseph offered an amendment providing for the removal of the Supreme Court from Jefferson City to Columbia. He said the removal of the high court from the capital city would take it away from the atmosphere of politics. He asserted he could cite decisions of the court in recent years where the Judges had divided on strict party lines.

The Morris amendment was vigorously attacked by A. T. Dunn of this city, who declared the Supreme Court was above politics and that politics had no consideration in the decisions of the court. The amendment was then voted down.

## CONFERENCES ON WAR DRAFT FOR FUTURE EMERGENCY ENDS

By the Associated Press.  
WASHINGTON, Sept. 22.—Conferences of War Department officers with former selective draft machinery officials, lasting several days, closed yesterday with the realization that similar discussions of manpower mobilization problems are to follow.

The meetings were not called to reach definite decisions, it was explained, but rather to establish contact between the military arm of the Government and men who had had practical experience with the war time draft system.

The exchange of experience was described as having given new viewpoint on many problems. Ultimately the information gathered will be worked into tentative draft regulations for any future war emergency.

## 40,000 GERMANS TO WORK ON RECONSTRUCTION IN FRANCE

By the Associated Press.  
BERLIN, Sept. 22.—Forty thousand German workers will go to Northern France to work on reconstruction under an agreement between a French concern and the company of Lehmann von Siemens.

The agreement was signed independently of Blinnes' Luban agreement, but will share with Blinnes' concerns in coal arrangements so that the coal used will be deducted from shipments to France.

The contract is for 325,000,000 francs worth of work which is only a beginning and other contracts will follow. Of the 124,000 workers to be used, it has been decided that one-half are to be foreigners, but the Germans are sending only 40,000 as there is a shortage of laborers in Germany.

## FORMER JUSTICE CLARKE DENIES HE PLANS TO SEEK PRESIDENCY

"I Shall Not Become Candidate for  
Any Public Office," He  
Declares.

By the Associated Press.  
YOUNGSTOWN, O., Sept. 22.—Reports that former Justice John H. Clarke, of the United States Supreme Court, had resigned from the bench in order to seek the Democratic nomination for President in 1924 on a League of Nations platform were denied by Justice Clarke in a statement issued today.

"To a lawyer," said Justice Clarke, "there is no higher honor than that which I have had, and when I resigned, I did not intend to become, and shall not under any circumstances hereafter become, a candidate for any public office."

Careful study of the proposed League of Nations, long before the treaty of Versailles was concluded, Justice Clarke said, left him with the profound conviction that unless some League were formed, other wars must soon follow, with results disastrous beyond to America and to mankind.

"What has happened since," he continued, "so confirms me in that conviction that I think it not an overstatement to say that unless our civilization shall, at an early day, devise some means of making an end of war-war will make an end of our civilization."

## COMMERCIAL TREATY PROPOSED Between Germany and Russia.

By the Associated Press.  
BERLIN, Sept. 22.—A new commercial treaty is proposed between Germany and Russia as an annex to the Rapallo agreement, making easier the exchange of German goods for Russian raw materials and facilitating trade.

German industrialists have been busy seeking mining concessions to obtain raw materials since the Urquhart agreement. Siemens' concern, which Krupp formerly represented in Russia, is arranging for copper concessions in Siberia. Siemens formerly got copper from Butte.

## WHAT DID YOU SEE TODAY?

Volunteer Reporters Tell the Post-Dispatch of the Interesting, Unusual and Often Humorous Incidents They Encounter.

### INSIDE INFORMATION.

I saw a visitor going through the Missouri Penitentiary, who got separated from his crowd of sightseers. He rushed up to a convict with the question, "How does a fellow get out of here?" The convict replied, "My dear sir, there are about 2200 men in here who want to know the same thing." After a good laugh he directed the man to the "round gate," where he would be passed out. JAMES McCREA, No. 20, 287, Box 47, Jefferson City.

### FOR HIS HEALTH.

I observed, on the Forest Park golf links, a man walking with the aid of two canes and carrying a golf bag full of stocks on his shoulder. R. A. BRADLEY, 1114A Hebert street.

### RELIEVING DISTRESS.

A little girl on an Olive car was waving a red balloon about two feet long. It came in contact with a hat-pin. The noise was loud, but no louder than the youngster's wail. First a dime from a sympathetic woman and then a nickel found its way into the child's hand, in a minute about half a dollar had been given to her. R. W. IRWIN, 4206 Castleman avenue.

### ONE OF THE NEW DANCES.

At the Forest Park Zoo I saw a work dance. The male bird stood with his back to the pool, very dignified-looking. The female started from one side of the cage and danced to the other side, daintily crossing and recrossing her legs, swishing her wings gracefully and swaying her body. Then she danced back to the side from which she started, when another female bird went through the same performance. The grave old bird didn't even utter a squawk of approval. MRS. A. AMICE, 2802 Windsor place.

### VALIANT CHANTICLEER.

I saw a rooster that brings food out of a garbage can three or four times a day to three motherless kittens jump on a boy who picked up one of the kittens. L. PLATT, 2127 Stoddard street.

### NOW FOR A MAN!

At a novelty jewelry counter of a department store I saw a well-dressed girl buy a wedding ring and an engagement ring. She put them on the proper finger and walked out. MILDRED FLINN, McMillan Hall, Washington University.

### FAR-SIGHTED.

This evening in a movie comedy a photo of the hero's grandfather was shown as a soldier of 1862. He wore broad-rimmed tortoise-shell glasses! ANNA GRANT, 2846A Castleman avenue.

### A TIP FOR RUTH.

There was a game of baseball on a nearby lot. It was getting dark when a player, using a board for a bat, smacked the ball. It disappeared. The batter cried the bases for a home run. They later found the ball stuck on a nail in the end of the board. RUSSELL TAYLOR, 1208 South Eleventh street.

### CHARM FEEL SHORT.

During batting practice before the Yankee game Monday, Shocker and Little Joe Ryan were in right field. A little darky with a mat of curly hair had been pleading with the

Brownie mascot for a ball. Finally as Shocker caught one he told Joey to rub the ball in the darky's hair for luck and then present him with it. The job was well done. Rastus getting several stiff rubs. Since the charm worked for eight innings—oh, that Joey had given one more rub for that fatal ninth.

S. C. MARTIN, 2350A Garfield avenue.

### COME IN PAIRS.

While taking my little daughter out for an airing, we saw four sets of twins out for the same purpose. They ranged from six weeks to a year and a half and were seen on Cherokee street between Jefferson and California avenues. MRS. C. E. MOHN, 3308 Salena street.

### LASHED TO THE MAST.

I saw a carpenter, while laying flooring, catch the seat of his trousers between two pieces of flooring. The only way he could get up was to tear up the flooring or tear his trousers. He chose the latter way. PAUL MEINEMEYER, 7404 Lansdowne avenue, Webster Groves.

DAUGHERTY TERMS INJUNCTION LAST WORD FOR PEACE

Makes No Suggestions Judge Wilkerson for Modification of Order Against Strikers.

JURIST PROMISES DECISION TOMORROW

Nineteen Roads and Suburbs at Peace With Strikers on Basis of Baltimore Terms.

By the Associated Press. CHICAGO, Sept. 22.—With railroad world waiting for the decision he has promised by 11 a. m. tomorrow, Judge James H. Wilkerson, in the preparation of his ruling on the Government's strike injunction, was without any suggestion today from Attorney-General Daugherty for modification of the restraining order.

The only features of the Attorney General's bill interpreted as any way modifying the order were effect, lay in clauses clarifying phraseology of original passages in the following provision:

"Nothing contained herein shall be construed to prohibit the use of funds or moneys of any said railroad for any lawful purpose and nothing contained herein shall be construed to prohibit the expression of any opinion or the maintenance of any picket line or the transportation of the mails."

Daugherty, at the close of hearing, personally explained Government's position. "This order," he said, "speaks last word for Government for society and civilization; for peace and fairness; for liberty and justice, with firmness, and, if necessary, with force."

Until he makes his ruling to the striking unions, he extended for a second 10-day remains in effect, Judge Wilkerson announced.

Nineteen Roads Make Peace. Nineteen railroads and their subsidiaries have made peace with striking shopmen on the basis of Baltimore terms, according to official announcement by John Edgar Hoover, director of the Federal Bureau of Investigation. At the time many other roads continue to hold aloof from the settlement and operated their shops independent of any negotiations with the striking unions. Roads which have declined the must shoulder the responsibility of maintaining a lockout, a line issued at strike headquarters.

Union representatives made that they were seeking an agreement with the Chicago & Alton in the hands of receivers.

The return of strikers to the Southern Railway at Ky. was marked by outbreak of a riot in which 14 men were injured.

The Southern was one of the which accepted the Baltimore Representatives of the road investigation was being made that shopmen who unlawfully departed would be prosecuted for the provisions of the injunction.

Explosion in Roundhouse. A bomb explosion in the Burlington & Quincy roundhouse in Kansas City marked the first order in those shops during strike.

At St. Louis, a bomb destroyed a car and stopped a train. Missouri Kansas and Texas Yards. Railroad officials believed the bomb was intended to destroy a car loaded with high explosives near the car which was wrecked.

D. A. Hamilton, president of the Federation of the shopmen in the Santa Fe shop at Fort Worth, Tex., was arrested for interfering with a Deputy United States Marshal who entered union headquarters to arrest a man with complicity in an attack on Vonderhaar, a workman.

The shops of the Louisville & Nashville Railroad at St. Louis were reopened when 300 strikers turned to work. Union leaders' status was "possibly" the same when they walked out.

Head of Springfield (Mo.) Chapter of the Associated Press. SPRINGFIELD, Mo., Sept. 22.—A conference will be held at the Chamber of Commerce today to reach a settlement of the strike now existing on the Springfield and San Francisco lines. Representatives of the railroad and

## DAUGHERTY TERMS INJUNCTION LAST WORD FOR PEACE

Makes No Suggestions to  
Judge Wilkerson for Modi-  
fication of Order Against  
Strikers.

## JURIST PROMISES DECISION TOMORROW

Nineteen Roads and Subsid-  
aries at Peace With Shop-  
men on Basis of Baltimore  
Terms.

By the Associated Press.  
CHICAGO, Sept. 22.—With the  
railroad world waiting for the de-  
cision he has promised by 11 a. m.  
tomorrow, Judge James H. Wilker-  
son, in the preparation of his ruling  
on the Government's strike injunc-  
tion, was without any suggestions  
today from Attorney-General Daugh-  
erty for modification of the restrain-  
ing order.

The only features of the Attorney-  
General's bill interpreted as in  
any way modifying the order now in  
effect, lay in clauses clarifying the  
phrasing of original passages, and  
the following provision:

"Nothing contained herein shall be  
construed to prohibit the use of  
funds or moneys of any said labor  
organizations for any lawful pur-  
pose, and nothing contained in this  
order shall be construed to prohibit  
the expression of any opinion or ar-  
gument not intended to aid or en-  
courage the doing of any of the acts  
heretofore enjoined or calculated to  
obtain or prolong a conspiracy to  
obstruct interstate commerce or the  
transportation of the mails."

Daugherty, at the close of the  
hearing, personally explained the  
Government's position.

"This order," he said, "speaks the  
last word for the Government and  
for society and civilization; for peace  
and fairness; for liberty and protec-  
tion, with firmness, and, if neces-  
sary, with force."

Until he makes his ruling the re-  
straining order issued Sept. 1 and  
extended for a second 10-day period,  
remains in effect, Judge Wilkerson  
announced.

Nineteen Roads Make Peace.  
Nineteen railroads and their sub-  
sidiaries have made peace with their  
striking shopmen on the basis of the  
Baltimore terms, according to an  
official announcement by John Scott,  
shopcrafts organization. At the same  
time many other roads continued to  
hold aloof from the settlement plan  
and operated their shops independ-  
ent of any negotiations with offi-  
cials of the striking unions.

Roads which have declined to set-  
tle must shoulder the responsibility  
of maintaining a lockout, a bulle-  
tin issued at strike headquarters  
stated.

Union representatives made known  
that they were seeking an agree-  
ment with the Chicago & Alton, now  
in the hands of receivers.

The return of strikers to the shops  
of the Southern Railway at Coster,  
Ky., was marked by outbreaks when  
union men were driven off in a  
fight in which 14 men were in-  
jured.

The Southern was one of the roads  
which accepted the Baltimore terms.  
Representatives of the road said an  
investigation was being made and  
that shopmen who unlawfully par-  
ticipated would be prosecuted un-  
der the provisions of the Federal  
statute.

Explosion in Roundhouse.  
A bomb explosion in the Chicago  
Burlington & Quincy roundhouse at  
Kansas City marked the first dis-  
aster in those shops during the strike.

At St. Louis, a bomb demolished  
a car and stopped a train in the  
Missouri Kansas and Texas Railroad  
yards. Railroad officials said they  
believed the bomb was intended for  
two cars loaded with high explo-  
sives near the car which was  
checked.

D. A. Hamilton, president of the  
Federation of the shopcraft unions  
in the Santa Fe shop at Fort Mad-  
ison, Ia., was arrested for interfer-  
ing with a Deputy United States  
marshal who entered union head-  
quarters to arrest a man charged  
with complicity in an attack on Jo-  
seph Vonderhaar, a workman.

The shops of the Louisiana and  
Arkansas Railroad at Stamps, Ark.,  
were reopened when 300 strikers re-  
turned to work. Union leaders said  
their status was "possibly the same,"  
as when they walked out July 1.

shopmen will attend the conference.  
Sol R. Wolf, president of the Cham-  
ber of Commerce, has been asked to  
act as mediator.

Postal Clerks Vote to Remain in A.  
F. of L.  
WASHINGTON, Sept. 22.—By a  
vote of almost two to one, the rail-

way postal clerks have voted to con-  
tinue affiliation with the American  
Federation of Labor. It was an-  
nounced yesterday by the Railway

Mail Association. A referendum mail  
ballot resulted in 7131 votes favoring  
continuation of affiliation to 3830  
against.

The railway postal clerks affiliated  
with the federation in 1917 "because  
of the oppressive policies of Post-  
master-General Burleson," the Rail-

way Mail Association asserted in a  
statement which added:  
"Since the resignation of Postmas-  
ter-General Hays there has been a

return to the discredited Burleson  
policies in the conduct of the postal  
service and the treatment of the pos-  
tal employees."

# A Million Dollar Drive for Fall and Winter, 1922

As we enter the second week of this mighty Million-Dollar Drive, we are satisfied that we have struck a popular chord in our determination to open the New Fall Season with savings of fully one-third. Unprecedented buying—throughout the week—has proven this beyond a doubt. Scores and scores of purchasers—supremely satisfied with the values they have obtained—are sending friends to secure the same advantages. All in all, it's the greatest carnival of buying this store has ever witnessed. Come tomorrow and secure your share of these wonderful values.

## MEN'S AND YOUNG MEN'S NEW FALL SUITS

THREE BIG GROUPS AT SAVINGS OF FULLY ONE-THIRD!

EVERY SUIT  
OF ALL-WOOL  
MATERIAL

\$17

ALL SIZES FOR  
SLIMS, STUBS  
STOUTS, REGULARS

\$23

\$29

Three wonderful groups of Suits at prices that prove conclusively our determination to undersell all competition by fully one-third. But the prices alone do not begin to tell the story. The garments themselves are of extremely high quality. Pure woolen materials—superb patterns and colorings—newest Fall styles—and tailoring equal to any found in the best custom-made Suits. With such features you can choose from these groups with supreme confidence that you are getting the very most for your money.

Every Suit in these three groups is made of pure woolen material—including serges, worsteds, casimères, Scotchies, velours and tweeds. All are made in the very newest Fall styles and come in the patterns and colorings that are certain to prove most popular. Beautifully tailored. All sizes for men, young men and youths.

Extra Trousers to match most of these Suits at small additional cost.

# 'SCRAP IRON LIZZ' STOPS HERE ON OVERLAND JOURNEY TO EAST

Two Tourists in Mud-Bespattered "Flivver" Attract Crowd on Olive Street.

Tourists, riding in almost every kind of conveyance, are constantly streaming through St. Louis, the center-point on an overland journey east or west. And often, their peculiar machines are curiosities.

Yesterday a mud-bespattered

"flivver," parked near the Postoffice on Olive street, attracted a crowd. L. M. Hurst and Harold Garrett, in what they have labeled their "Scrap Iron Lizz," are touring to the east from Seattle, Wash. They departed Aug. 14, driving south through California, going out through Needles, across the deserts of New Mexico and Arizona, through Santa Fe, up to Trinidad, Colo., across Kansas to Kansas City and departing from there Monday, arriving here at 10 a. m. They plan to depart today.

The roadster is covered with slugs, a typical feature of many.

# For Saturday ONLY

Open Until 6:30 P. M. Saturdays—the Year 'Round

"The Madison"—\$30.00 Each

Twin or Full Size

Designed by Simmons—

As you see, this Simmons "Madison" Bed sells at a notably low price—materially less than usual for Beds of such character and distinction. Made in twin and full size.

\$2.00 Cash delivers

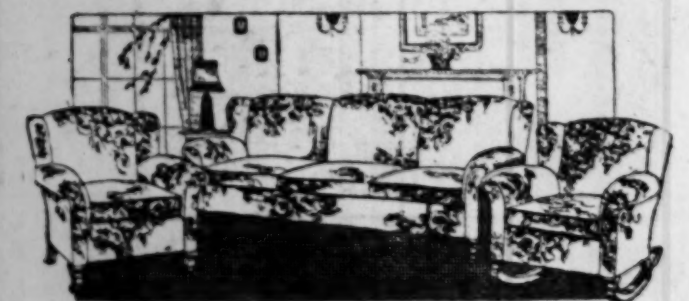

It is finished in rich brown Mahogany and American Walnut—with the "hand-rubbed" character which distinguishes the fine furniture of the early American period.

**\$5.00 Delivers Any "Superior" Combination Range Coal and Gas**

Finished in black, blue or gray enamel with nickel trim lugs, the Bridge, Beach & Co.'s "Superior" is truly a Range fit for the finest homes, but prices are so low you will be surprised when they are named. And if you haven't the cash, we will gladly trust you until it is convenient for you to pay. Five dollars will buy a new Combination Range.

**\$105.00 to \$185.50**

Comfort and Real Quality **\$157.50** in This Living-Room Suite

Rarely indeed are we able to offer such an exceptional value in high-grade living-room furniture. This Suite of three well-made pieces is covered in beautiful tapestry. The davenport has a strong web bottom and all pieces have deep spring seat and back. A sizable saving can be effected by taking advantage of this reduced price. Frames, finished mahogany.

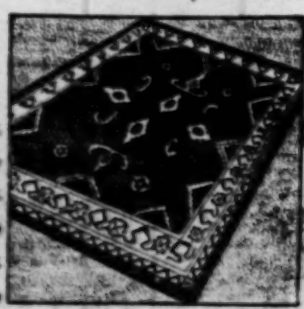

**Heavy Cork Linoleums A Big Selection, Square Yard**

**79c**

A very special offering of high-grade floorcoverings—some dandy patterns in Cork Linoleums. You can now keep your floors spick-and-span with the least effort. For tomorrow only, priced at 95c per square yard, 12-foot wide, 79c per square yard, 6-foot wide.

# NOTED POLO PLAYER DIES IN AUTO ACCIDENT

Charles Cary Rumsey Also Was Well Known for Work as Sculptor.

By Leased Wire From the New York Bureau of the Post-Dispatch.

NEW YORK, Sept. 22.—Charles Cary Rumsey, 42 years old, of Wheatley Hills, N. Y., internationally known polo player and sculptor, was killed almost instantly early last night in an automobile accident at Floral Park, L. I.

Rumsey was riding with Irving Hare of Forest Hills, and Hare's fiancée, Miss Jeanette Ramson. Miss Ramson suffered bruises and shock. Hare collapsed at the wheel and is under physicians' care.

Rumsey and Hare, who long had been close friends, met on a late afternoon train from New York. Rumsey invited Hare and his fiancée to dine with him and Mrs. Rumsey, who was Miss Mary Harriman, daughter of the late Edward H. Harriman. They stopped at Forest Hills to get Miss Ramson and Hare's automobile.

Rumsey telephoned to his wife that he was bringing two friends to dinner. Mrs. Rumsey told him she might be late, as she was leaving to attend the wedding reception of Mr. and Mrs. Kenneth O'Brien, at Roslyn, L. I.

**Crash Against Abutment.** As they approached a railroad bridge over the Jericho road at Floral Park, something broke and a tire blew out. Hare's car crashed against a bridge abutment, throwing out Rumsey and Miss Ramson. Rumsey was thrown upon his head, his skull being crushed. Miss Ramson landed on her right shoulder.

A sedan in which former Representative and Mrs. Lathrop Brown were riding to their home at St. James, L. I., was passing. The Hare machine sidwiped it, turning it around.

Mr. and Mrs. Brown, friends of Rumsey and Hare, summoned Dr. Joseph Musate of Floral Park. Rumsey died a few minutes after the physician's arrival. The body was removed to a nearby garage, where Coroner Jones of Hempstead, said death had been caused by an accident. Miss Ramson and Hare were treated at a house nearby and removed to their homes.

Rumsey was better known, perhaps, as a sculptor than as a polo player, although he had been a member of every American polo team to compete in international matches since 1913. He was captain of the American team that defeated all-English teams in England a year ago, and also of the American team defeated by the Argentine four in the international matches at Rumson, N. J., last month.

**Early Honors in Sculpture.** He was the son of Laurence D. Rumsey of Buffalo, where his family was socially prominent. Before he entered Harvard he won a prize for a work of sculpture at the St. Louis Exposition. Within two years after his graduation he had subjects on exhibition at the Metropolitan Museum.

Last year Rumsey created a furore in art circles by going into court to force the Metropolitan Museum to display "The Fugan," a nude sculpture, against which many organizations protested. He won. At the time of his death Rumsey was engaged upon a war memorial to fallen soldiers of the Seventy-seventh Division of Brownsville and vicinity, to which he had been attached. He was also a member of the American Flying Corps in France.

**By the Associated Press.** PHILADELPHIA, Sept. 22.—Owing to the death of C. C. Rumsey, the Meadowbrook polo team last night withdrew from further competition in the international polo tournament at the Philadelphia Country Club, giving the cup to Eastcott, the Anglo-American four, by default. Meadowbrook was to have met Eastcott tomorrow in the final match.

# JACMEL, HAITI, ENJOYS HEAVY GROWTH IN ORANGE PEEL SALE

Fast Wrestling Monopoly in Exportation of Commodity From Curacao in West Indies.

Curacao, Sept. 22.—Jacmel, Haiti, Sept. 6.—Haiti is fast wrestling from the island of Curacao, in the West Indies, the monopoly in the exportation of sour orange peel used for the flavoring of Curacao, Amer Picon and other liqueurs made in France, Holland and Denmark.

In July Jacmel exported 185,000 pounds of the dried peel valued at \$42,000 to Hamburg, from which it is in turn shipped to the principal European markets. This amount is 14 times greater than the total for any one month in the last nine months.

Sour orange trees grow here with practically no care. The price paid to the peasant averages between 2 and 3 cents a pound, and for each pound the peasant must pick and peel and drive into market 50 oranges. In Hamburg the selling price, f. o. b., is 22 cents a pound. Jacmel's exportation of the peel to the United States, where it is used for flavoring extracts and medicinal preparations, also more than doubled last year. This year's figures will show a considerable increase over the 75,896 pounds shipped in 1932.

**Stages of the Rivers.** Pittsburgh, 4.1 feet; fall 1; Cincinnati, 9.1 feet; Louisville, 2.4 feet; St. Louis, 2.8 feet; Cairo, 8.9 feet; Memphis, 4.7 feet; Vicksburg, 8.7 feet; New Orleans, 4.8, no change.

### Indictments in Herrin Case Due to Testimony of Men of Advanced Age

Thomas Ward, 80, Who Disregarded Threat to  
Blow Up Home When Called as Witness, Fur-  
nishes Unusual Example of Courage.

By a Staff Correspondent of the  
Post-Dispatch.  
MARION, Ill., Sept. 22. — "Old  
men for courage" is the summing  
up of Attorney-General Brundage  
and the 23 good men and true,  
Williamson County's best, who for  
21 days have been investigating the  
June-day slaughter which will so

down in history as "The Herrin  
Massacre." For the dozens of in-  
dictments which have been returned  
the credit is greatly due to the old  
men, who, nothing daunted by  
threats of vengeance, have told the  
jurors what they saw that day, when  
19 men, disarmed prisoners, were  
shot and slashed and beaten to death  
by a mob of hundreds of lawless  
and bludgeoned to reach vital spots.  
And in the trials which are short-  
ly to begin it will be the testimony  
of the old men which will give the  
gallows its due if it gets its due.  
Men like old Thomas Ward, who  
lives six miles south of Marion.  
Ward is 80 years old, but his is the  
courage which the cringing youth of  
Williamson County might well crave.  
He was called as a witness and word  
was sent to him that if he testified  
his home would be blown up. But on  
the day set for his appearing he was  
there.

Not Daunted by Threat.  
"I've lived my 80 years," he said,  
"and I haven't long to live anyway,  
so if they want to blow me up for  
testifying to the truth, they can be-  
gin blowin'."  
"Thomas Ward," called Bailiff  
Dick Oldum, and Thomas Ward en-  
tered the grand jury room. Not all  
of the men who regardless of risk  
have told the grand jury the truth are  
as old as Thomas Ward or as  
ready to forfeit life that is still dear  
to them, but rather than perjure  
their souls they have taken the  
chance.

How they found out that Ward  
knew something and would tell it  
was in this wise: As witnesses in  
the court room waiting to be  
called into the grand jury room  
there were scattered among them,  
as the custom was, men who looked  
like coal miners, but who were in-  
ter service agents. With prodigious  
ear capacity they caught stray cur-  
rents of conversation. Two young  
men sat in front of one of these and  
they talked about "the case," one  
of them said, "We're all right unless  
they get hold of Uncle Tom. If they  
get him, he'll tell 'em all he knows."

How "Uncle Tom" Was Found.  
The ears behind them took it all  
in and search was made for "Uncle  
Tom." Residents of the section  
where the young men hailed from  
reckoned that the only Uncle Tom  
that could be meant was most likely  
Uncle Tom Ward. They hunted up  
Uncle Tom and he said he reckoned  
he was the old codger they were  
looking for.

Would he tell what he knew? He  
would do that same—yes, he had  
heard that they were going to blow  
him up if he did, but he didn't have  
long to live, anyway, and if they  
wanted to blow him up, let 'em come  
on and be damned to 'em.

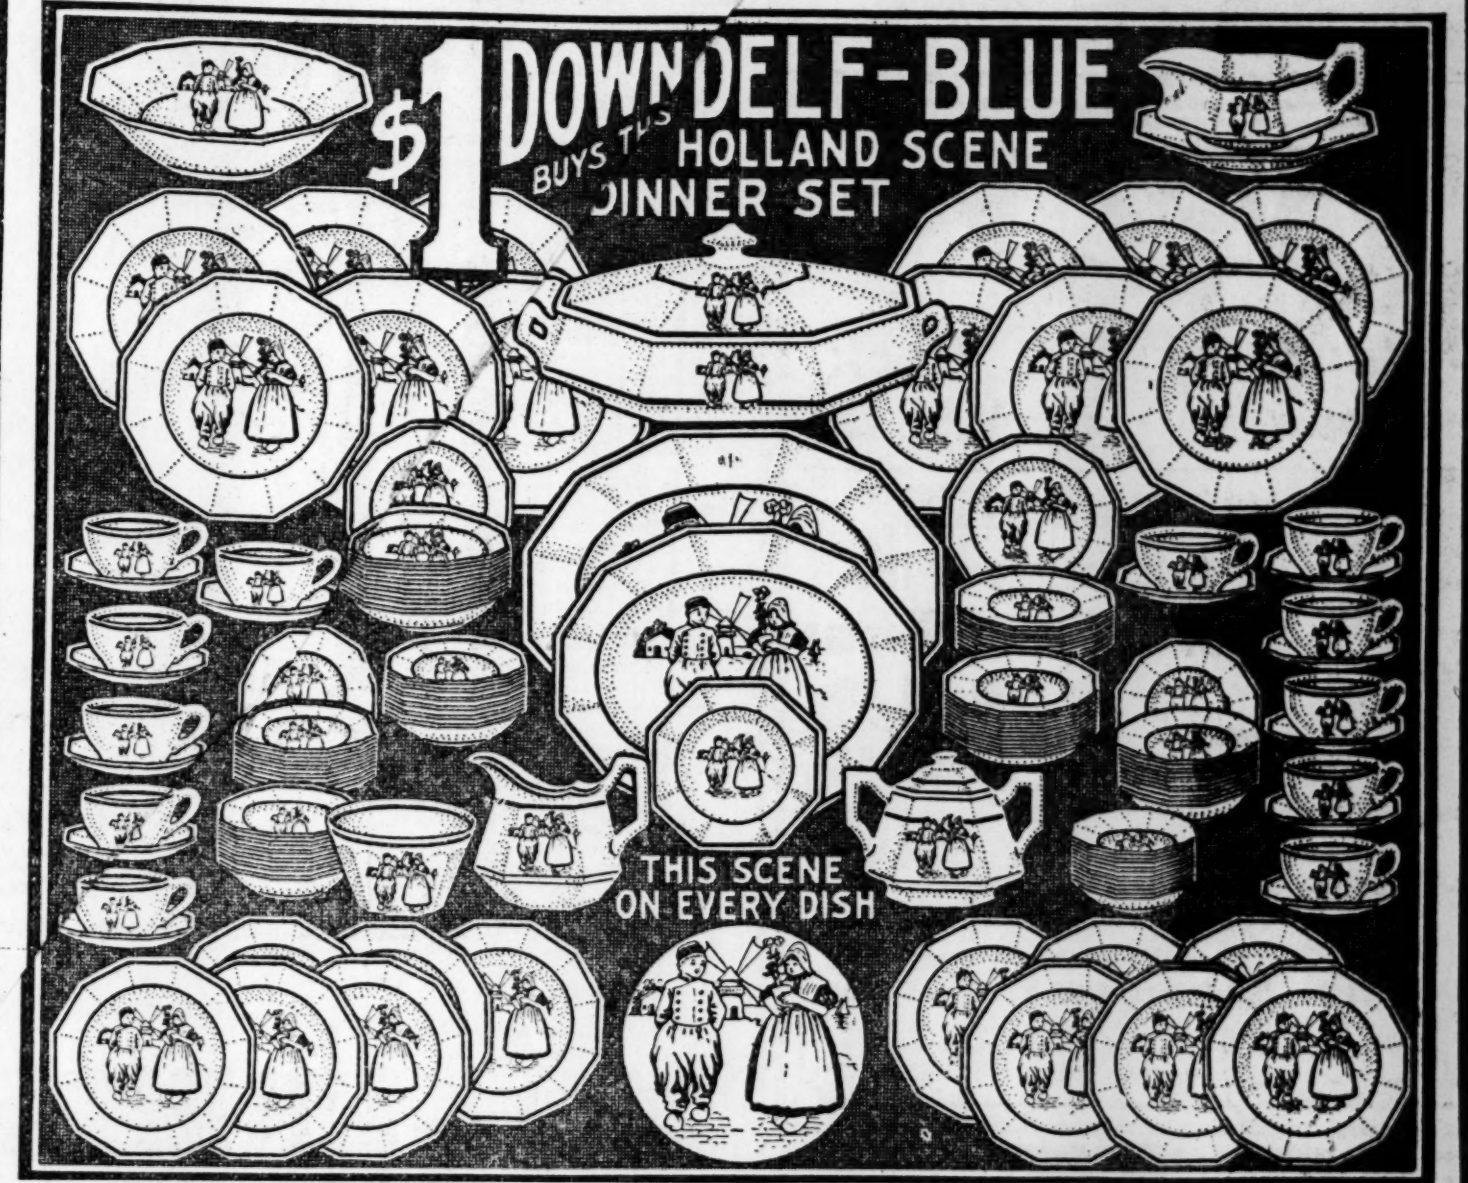

Not all have testified with bold-  
ness. Some, struggling futilely  
against fear, have wrung pity from  
the jurors. State's Attorney Delos  
Duty did not mean to be unkind  
when he described one of these as  
"panting like a lizard on the sunny  
side of a fence rail." It was just  
his homely Williamson County way  
of telling how an old man, torn be-  
tween loyalty to his country and his  
outst and fear of consequences, palpi-  
tated in the jury's presence, but if  
the most courageous man is he who  
does what he fears to do, greater  
here is he who panted like a lizard  
on the sunny side of a fence rail  
than he who felt no fear for between  
his pantings this old man told and  
indictments were the result.

Case of One Young Man.  
There was the case of a young  
man who, when nobody in William-  
son County thought there ever would  
be prosecutions, spoke rashly about  
all the things he had seen that early  
morning in June when the mob  
marched its prey down by Cren-  
shaw's crossing on the way to the  
woods of death, but there were  
quietly moving agents of justice who  
listened and set down what they  
heard, and when that young man in  
the grand jury room denied that he  
had seen anything he was confront-  
ed with a record which confounded  
him and sent him out of the room a  
prisoner to answer to the charge of  
perjury.

There were some young men who,  
fearful of perjury's penalties, re-  
fused to testify and thereby for-  
fettered the exemption which they  
might have earned and the names  
of those young men are now on the  
indictment list.  
The grand jurors, as recompense  
for neglect of their farms, have  
learned a lot of interesting things,  
as for instance, how scores were  
stricken blind and deaf that day,  
when men were done to death within  
eye range and ear range. Without  
batting an eye or wagging an ear,  
they have told the jurors that they  
saw nothing and heard nothing.

Forgetfulness Exhibited.  
Amazing has been the facility for  
forgetfulness exhibited by many who  
saw and heard but can't remember.  
A funny thing about memory, as  
its vagaries have unfolded before the  
jury, has been the ability to remem-  
ber men who are conveniently de-  
ceased. Witness after witness  
pressed to recall the names of per-  
sons they saw in the mob, have ex-  
claimed, "Oh, I remember now; I  
saw Sam So-and-so or Bill What's-  
his-name."  
"But Sam and Bill are dead, aren't  
they?"  
"Yes, they're dead."  
"Well, can't you remember any-  
body who is alive?"  
"No; Sam and Bill are all that I  
remember."

**President Wants Measure**

**Passed, by House at Least,**

**Before Regular Term**

**Opens in December.**

**MID-NOVEMBER IS**

**PROBABLE TIME**

**Action by Lower Body Then**

**Would Give Senate Some-**

**thing to Work on Early in**

**December.**

By DAVID LAWRENCE,  
A Special Washington Correspondent  
of the Post-Dispatch.

WASHINGTON, Sept. 22.—A special session of Congress for the middle of November, just after the elections, is likely to be called by President Harding. The President wants ship subsidy legislation passed, by the House at least, before the regular appropriations bill of the December sessions. The two weeks immediately after the November elections and before the regular session begins would enable the House to dispose of the merchant marine measure by means of a special rule. This would give the Senate something to work on immediately it convenes in December. Ordinarily, the Senate marks time during the first few weeks of December, waiting for the House to originate and pass appropriation bills. Mr. Harding gave notice some time ago in a letter to Chairman Campbell of the House Rules Committee that if the ship subsidy bill were not passed before Congress adjourned a special session would be called.

**Strategy in Postponement.**

The President recently wrote the House leaders that he would not press the matter at this session, as the strike situation at that time threatened to complicate the whole legislative program. His consent to postponement did not mean abandonment of merchant marine legislation. On the contrary, it was deemed better strategy to wait until after the November elections. The interjection of the prohibition issue had much to do with the decision to postpone ship subsidy legislation. While the administration foresees no difficulty in solving the matter of liquor sales on foreign and American ships touching the shores of the United States, it was conceded debate on the subject before election might add unnecessary issues to the congressional campaign.

The administration has no fixed policy about the sale of liquor on American ships. The law in the case is considered ambiguous, but the economics of the situation are clear—to prohibit liquor sales means an advantage to the passenger ships of foreign flags.

**Possible Complications.**

If Congress adds an amount in a subsidy to compensate American owners for their loss, the administration has no objection to making the ships dry. And if Congress passes a law without taking into account losses to American ships, then the question of arranging by treaty that foreign ships shall not carry liquor to and from American shores will arise. It is doubtful whether foreign countries would agree to this restriction. Perhaps the whole matter will be left in abeyance, the status quo being maintained until treaty arrangements can be made placing foreign ships on the same basis as American vessels.

Mr. Harding is so anxious to get rid of the shipping problem, so eager to get the merchant marine on a sound basis that he no doubt will be willing to follow the wishes of Congress on that point and will press for the legislation itself.

**President to Insist.**

Although the fate of the ship subsidy bill has been variously pictured, the fact is President Harding means to insist on the measure. It is unlikely that Congress will turn him down, as he will then ask operation and maintenance of the war fleet on a competitive basis with the vessels of other countries.

The special session in November can be taken for granted. Congress will have no excuse to evade the issue, as the session would be called for one purpose only—the creation of an American merchant marine ships to private companies aided by Government appropriation.

**"BUDDHISTS AND CHRISTIANS MAY BE SAVIORS OF WORLD"**

Oxford Professor Says Eastern Faith Has Adopted Christian Methods Wholesale.

OXFORD, England, Sept. 4.—"Buddhism is the probable rival of Christianity in the Far East," said Prof. Soothill, who at one time occupied the chair of Chinese at Oxford University. In an address before the Conference of Modern Churchmen, his remark has created something of a sensation in church circles.

"Buddhism," the professor stated, "can adopt and adapt at will. It has recently adopted Christian methods wholesale. Its ideas are at work in the West, even in our churches. Buddhism calls for sympathetic study, and the day may come when the best men in Buddhism and Christianity will meet together to discuss the possibility of working together for the salvation of the world."

"Buddhism, originally little more than psychology and ethics, is today a religion and the only probable world rival to the two other propagandist religions, Christianity and Islam. Islam has a closed creed. Christianity is writhing in its own bonds, but will burst them. Buddhism is spreading in China."

**QRS Tells the Story**

Wouldn't it be a wonderful experience to talk over some favorite piece of music with its composer—to hear him tell the circumstances which led him to the selection of a particular theme, as well as listen to his own interpretation of how he had accomplished the proper expression?

You have the whole story right before you on the QRS Story Rolls. They add a fascination and a charm to your favorite selections that have heretofore been the exclusive possession of the favored few possessing an extensive knowledge of musical history.

## GRAND JURY BEGINS INQUIRY INTO VOTE FRAUDS IN COUNTY

Charges of Gambling and Il-  
licit Liquor Traffic Also  
to Be Taken Up During  
Session.

ORDER OBTAINED  
FOR BALLOT BOXES

All Documents Pertaining to  
Election to Be Brought  
Before Inquisitorial Body  
—Voters Are Subpoenaed.

The St. Louis County grand jury, which was impaneled last Monday, at its first meeting in Clayton this afternoon began investigation of election frauds in the August primaries, gambling and illicit liquor traffic.

The investigation is expected to occupy the grand jury for a long period. Prosecuting Attorney Mueller and Randolph Laughlin and Amandus Brackman, special assistants to the Attorney-General, are presenting the evidence.

County Clerk Seibel was directed in a subpoena duces tecum to bring to the grand jury this afternoon the ballot boxes, poll books, official returns and other documents pertaining to the primary from 11 precincts, including that at Wellston. This is the first time that ballot boxes will be opened in St. Louis County in an investigation of a primary, being done under the new State law.

Charges Made in Affidavits. In affidavits made by voters and some appointed election officials for the Wellston Precinct, who were not allowed to serve by men who took possession of the polls, it was charged that among these men were employees of the gambling establishment of Anthony P. (Tony) Foley, ex-convict, at 6128A Easton avenue, Wellston. The men who ran this precinct, it was charged, set the clock up an hour and had votes recorded as cast when the first regular voters arrived and refused to let a woman and a man who were appointed Democratic judges, serve.

The day after the election hundreds of voted but mutilated ballots were found in the yard behind this polling place. The conclusion was drawn from the fact that these ballots were both for and against machine candidates that most or all of the voted ballots were discarded and replaced by prepared ones. Women watchers who counted voters entering this polling place all day saw only 333, they reported, but the official return was for about 600 votes.

The three men who are shown on the County Clerk's books as having served as the Republican judges of this precinct were: Eugene Canty of 6128A Easton avenue; Foley's place; James Burns of 6123A Easton avenue and John Copeland of 1547 Wellston place. Canty was arrested under a warrant in connection with the alleged frauds in a raid on the Foley place Sept. 2. Copeland later surrendered under a similar warrant. They are both at liberty on bond.

Voters Subpoenaed. The following voters of Wellston Precinct, Clean Election League leaders, county officers and others were subpoenaed for appearance before the grand jury today, all the street addresses being in Wellston: Wyatt S. Peck, 6414 Wellmar avenue; Mrs. John Percival, 6122 North Market street; Edward Rothmeyer, 1542 Lewis avenue; Mrs. Edward Rothmeyer, Alexander Campbell, 6425 Wellmar avenue; Mrs. Rose Welp, 1527 Lewis avenue; Willis Benson, former Republican County Committeeman, who was defeated for the nomination for Collector by the machine, 6200 Page avenue; Circuit Clerk Willeken, who was also defeated for re-nomination; Edward H. Braun, 2156 Edmond avenue; Mrs. George Percival, 6425 Wellmar avenue; Mrs. Ed Schaffer, 1570 Wellston avenue; Deputy Sheriff Robert Goerlke, E. E. Barker, 1528 Wellston avenue; Mrs. Carrie L. Bruno, 1515 Valle avenue; R. Surkamp, 1514 Kienlen avenue; J. M. Powers, 6212 Cote Brillante avenue; John F. Wessler, 6437 Myrtle avenue; Warren McGinnis, 6202 Garfield avenue; Mrs. Charles Wood, 1541 Lewis avenue; G. P. de Rouse, 6214 Isabella avenue; Adam P. Offenstetter, 1518 Irving avenue; Walter Bruno, 1515 Valle avenue; Mrs. E. Leitz, 6241 Wellmar avenue; R. J. Goehle, 6217 Cote Brillante avenue; C. E. Dunlap, 6203 Cote Brillante avenue.

Precincts Involved. The 10 other precincts for which the ballots and other election records were ordered produced are: Darcy Hill, near Wellston, where voted, mutilated ballots were also found in the back yard; Carsonville, Engleholm, De Hodelmont, Garfield, University City No. 3, University City No. 4, Page Avenue No. 1, Page Avenue No. 2, Maplewood No. 2. The Clean Election League, which is placing the Clean Election ticket on the November election ballot as a means towards governmental reform, is circulating petitions for voters' signatures to accompany the ticket when it is filed with the Secretary of State, which must be done

by Oct. 2. The signatures of about 370 county voters who did not vote in the primary or who have good reason to believe their votes were not counted are needed. However, an effort is being made to obtain about 1000 signatures, as usually some names which cannot be counted are found on various petitions. Six notaries have been engaged to take the petitions about the county and attest signatures. More notaries are wanted. About 200 signatures have been obtained.

## MAN HURT GIVING GOLF LESSON

Wife's Club Struck Him When He Stepped Too Close.

Harry C. Henger of 3459 Halliday avenue, vice president of the Wulffing Grocery Co., has not been at his place of business this week, due to an injury suffered Sunday when giving instruction in golf to his wife at Sunset Hill Country Club. He was directing a swing and stepped so close that when Mrs.

Henger swung the head of the club struck him over the eye. The sight of the eye was not impaired.

**TEMPTOR DIRECTORS SUED AT EDWARDSVILLE**

Four New York Banks Seek to Collect \$772,000, Alleged Dividends From Rentals.

Five suits to recover \$772,000 from the individual directors of the bankrupt Temptor Corn and Fruit Products Co. were filed at Edwardsville yesterday by attorneys for four New York banks, which allege they hold claims against the company totaling \$745,000. The suits are identical with actions filed recently in the Federal Court here.

The claim is made that the directors of the company declared a dividend from rentals received for a plant at Granite City, and that this action affected the solvency of the corporation. The Illinois law holds the directors responsible for debts when the declaration of a dividend makes the concern insolvent or impairs the capital.

Suit Filed by Banks.

The four petitioners are the Hariman National Bank, Manhattan Bank, Irving National Bank and the United States Mortgage and Trust Co. The four filed individual suits for their claims and joined in the fifth suit, which is in the form of a creditor's bill.

Defendants named in the suits are R. King Kauffman, Milton G. Clymer, A. C. F. Meyer, Louis F. Best, Rudolph R. Bang, Samuel W. Fordyce, of St. Louis; C. Sewell-Thomson, Colorado; Louis Rosen, Iowa; J. M. Beatty, Ohio; O. P. Sauer, Louisiana; Benjamin Schneewind, Illinois; and Frank J. Humphrey, New Jersey.

The Temptor property was sold at auction last Saturday, the Mercantile Trust Co., trustee for the bondholders, making a bid of \$1,000,000. This bid is awaiting approval by the Referee in Bankruptcy. When stock of the company was being sold the purchase price of the Granite City plant was given as \$4,500,000.

Best-Clymer Re-organization.

Reorganization of the Best-Clymer Manufacturing Co., bankrupt, which was a subsidiary of the Temptor company, by preferred stockholders is under way. Articles of incorporation for a new company, to be known as the Best-Clymer Co., were filed yesterday at the City Hall. The paid up capital stock was given as \$225,000.

The application for a charter to deal in grocery commodities, stocks and bonds listed the stock as follows: Edward Dietrich, 17,639 shares, and one share each held by M. G. Clymer, L. D. Dozier, T. P. Bates, Louis Rosen, W. F. Carter, W. C. D'Arcy, Rudolph A. Huber and Sam B. Jeffries. D'Arcy was trustee of the company and is in charge of the reorganization details. The property of the company, with an appraised valuation of \$1,643,000, was bought by the preferred stockholders recently for \$510,000.

Ironized Yeast Will  
Ironize Your Nerves

To Produce Great Natural Nerve Strength, Yeast Should Be Ironized and Not Merely Mixed With Iron. There is Only One Ironized Yeast in the World.

Now, Mr. Man, tighten your jaw and clamp your jaws tighter. Now still tighter. As tight as you can. Notice how weak the tightest you can get. Vitamins and iron in your body made it possible for you to do these two things. If you had still

Is He Run-Down, Exhausted? See  
That He Takes Ironized Yeast!

more vitamins, ironized, you could tighten your jaw and your jaws almost as tight as a vise. Ironized Yeast will enable you to do it, because ironized yeast combines concentrated vitamins with natural organic iron, in such strength that it gives amazing power to nerves and organs in half the usual time. It is the most powerful reconstructive in the world today for tired, exhausted men and women. It is not a mere mixture of yeast and iron, but is all by itself. Give your nerves the natural food-strength they lack. They do not need stimulation, they need natural force. Here it is, Ironized Yeast! This will give you great blood power, great nerve power, an avalanche of energy, brain clearness, stronger muscles, firmer flesh, a clear eye and memory—and you'll smile the smile of health and power. Ironized Yeast is sold at all drug stores, at \$1.00 a package. Each package contains 40 tablets, each tablet is sealed. They never lose their power. Write to Ironized Yeast Co., Atlanta, Ga. Just try it. It will prove itself!

Hiding a  
rash won't heal it

Attempts to conceal complexion blemishes usually fail, and only serve to draw attention to the defects. Underneath most unattractive skins is a clear, pleasing complexion—all that is needed is the proper treatment! It is surprising how often a brief use of Resinol Ointment and Resinol Soap will clear away blotches, redness and roughness and give the skin its natural freshness and charm.

Ask your druggist for Resinol.

PORTO RICAN OFFICIAL  
URGES RECALL OF REILY

Commissioner Says Governor Is Undermining Faith of Islanders in U. S.

By the Associated Press.  
WASHINGTON, Sept. 22.—Protest against the continued service of E. Mont Reily as Governor of Porto Rico was made in the House today by Felix Cordova Davila, resident commissioner of the island, who declared the Governor was undermining the faith of Porto Ricans in the United States.

"Porto Rico cannot tolerate Reily," said Davila, "because Reily is morally and mentally unfit for the position he holds and because he is disrupting the insular service."

Davila declared "the situation in Porto Rico today is worse than ever and business is seriously handicapped because public works and improvements are in general disregard and in a critical condition."

"I was told by reliable authorities," said Davila, "that the President would not act as long as Reily was being attacked, and I was advised to keep quiet as this was the best way to obtain the recall of the Governor."

"I followed this advice and I have been silent for nearly four months without saying a word in spite of the continuous blunders committed by Reily in Porto Rico and without any regard to the propaganda he is launching in home newspapers."

"I recommended to my people to be patient and after four months of silence I do not see any signs of relief."

"Since the request for removal of the Governor has been unheard," Davila continued, "we appeal as a last resort to the American people and the American press, asking for their assistance in this struggle for justice and a square deal." He introduced a resolution requesting the President to transmit to Congress the report of Brigadier-General Bandholtz, who went to Porto Rico to make an independent investigation and also the recent report of the Attorney-General of the island.

## RAILROAD WORKER STABBED

Chastefleur, Held by Police, Admits Fight, but Denies Cutting.

Elmer Fox, 25 years old, of 2503 North Grand boulevard, was taken to the city hospital by policemen last night with a minor stab wound in the abdomen, said to have been inflicted in a fight following a dispute over union principles. Fox is a nonunion railroad employee.

Louis Mandel, 24, a union chauffeur, of 1102 North Compton avenue, was arrested and admitted being in a fight with Fox at Union Station about midnight last night, but denied stabbing him.

## BISHOP QUAYLE CONVALESCING

Methodist Episcopal Clergyman to Leave Hospital Soon.

By the Associated Press.  
SAN FRANCISCO, Sept. 22.—William A. Quayle, Bishop of the Methodist Episcopal Church in the St. Louis area, who has been seriously ill at a hospital here for several days, is reported as convalescing tonight. Owing to his illness and on the advice of his physician, Bishop Quayle has canceled a number of important sectional conferences scheduled to be held in the next two weeks in California. He will return to Kansas City, it was said tonight, as soon as he is strong enough to travel.

## MURDER CHARGE NAMES WIDOW

Indictment Returned Against Kentucky Woman and Others.

By the Associated Press.  
WINCHESTER, Ky., Sept. 22.—An indictment charging Mrs. Nancy Catherine Renaker, widow of Leon Renaker, wealthy Winchester commission merchant, with conspiracy in the murder of her husband, was returned yesterday by the Clark County grand jury. Indictments were also returned against Scobee Hardman and J. Ross Fox, charging them with conspiracy in the murder.

## ARMY PLANE REACHES FORT SILL

By the Associated Press.

FORT SILL, Ok., Sept. 22.—The big army monoplane in which Capt. John C. MacReady and Lieut. Oakley Kelley will attempt a transcontinental nonstop flight, arrived at Fort Sill here last night, from Scott Field, Belleville, Ill. The plane started for the coast from McCook Field, Dayton, O.

The officers plan to resume the trip to San Diego today.

## School Language Law Fails.

By the Associated Press.  
OKLAHOMA CITY, Ok., Sept. 22.—A proposed amendment to the Oklahoma Constitution to compel all children of school age, up to and including the eighth grade, to attend public schools in which only the English language is taught, failed in its inception when the time for filing signatures to the petition with the Secretary of State expired.

## Woman and Baby Carried Away.

By the Associated Press.  
BRAUMONT, Tex., Sept. 22.—Stating that he had been robbed of \$100 in cash and a \$35 check, Ramon Oledarias, a Mexican, living at Mauriceville, Tex., notified the Mexican Consulate here today that the burglar, believed to be also a Mexican, had carried off his wife and 4-year-old daughter.

## AMERICAN HISTORY for AMERICAN CHILDREN

By Hendrik Van Loon  
Author of "The Story of Mankind"

This new serial, by this most popular author, will make an even more tremendously popular appeal than his previous masterpiece, which took the reading public by storm several months ago. "American History for American Children," is a real treat for boys and girls (and grown-ups, too). Dr. Van Loon "feels" history and writes about it as he would write about living persons and current events. He backs up his easy, simple, vivid writings with pictures—little pen and ink sketches, unconventional and whimsical, that go straight to the point and complete the story for the youngster and grown-up alike. Commencing next Monday in the POST-DISPATCH, Dr. Van Loon will give a personally conducted "lesson" in American History. Don't miss the first one—and you won't miss any of the other sparkling ones which follow.

Commences Monday in the POST-DISPATCH

**DRIVER'S JURY ORDERS DRIVER TO TALK AUTO ACCIDENT HELD**  
Carelessness Charged  
Against Patrick J. Hamill in Case of Passenger's Death.  
Patrick J. Hamill, 22 years old, a chauffeur, of 2125 Carr street, was ordered to talk on a charge of criminal carelessness by a coroner's jury after an inquest in the case of Edward J. Welby, 21, of 1445 North Sixteenth street, who died at his home, Sept. 16, from a wound in the neck suffered at 1 a. m., Sept. 3, in an automobile collision at Sarsaparilla place and O'Fallon street, between a machine driven by Hamill and another driven by Vernie Popplewell, 25, of 4452 Greer avenue. Welby, who was riding with Hamill, suffered a cut in the throat when thrown through the windshield. He was given emergency treatment at the city hospital and several days later was removed to his home. Dr. Edward Snyder, 3635 North Newstead avenue, who treated Welby at his home, testified Welby's wound had been improperly sewed in the city hospital. He stated Welby was bleeding internally when he was called. Popplewell testified he was driving west on O'Fallon street and collided with Hamill's machine, going west on O'Fallon on the wrong side. Popplewell and other witnesses testified there were no lights on Hamill's car. Hamill has been at liberty on a \$5000 bond since the accident, and this bond was deemed sufficient by the coroner to hold him for the grand jury.

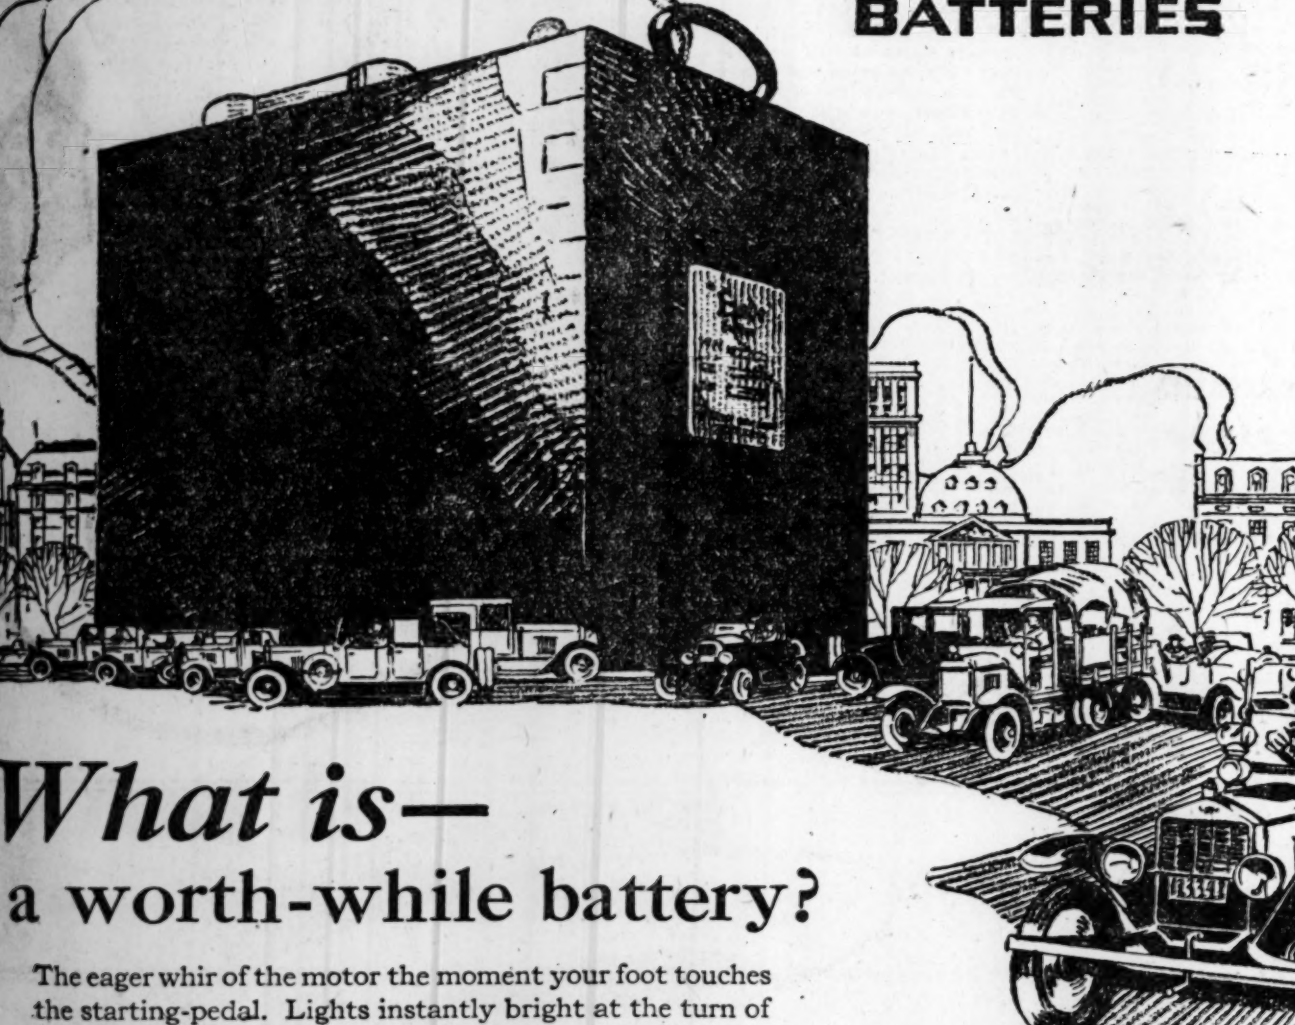

**JOFFRE, UNRECOGNIZED, DENIED LIFT IN PARIS FREIGHT ELEVATOR**  
"You Can't Come In Because Lord Curzon Is In Here," General Is Told, Impressively.  
By the Associated Press.  
PARIS, Sept. 22.—Lord Curzon, British Foreign Secretary, arrived in Paris recently at the Quai d'Orsay station, and found the passenger elevator out of order. He complained to the station-master, who, with much diffidence, proposed that his Lordship should reach the street level by means of the freight elevator. Lord Curzon accepted without enthusiasm, and just as the elevator boy was slamming shut the gates, there came rushing toward the lift a thick-set, elderly man, breathing heavily. He made as if to enter the elevator, but the attendants waved him off. "I am just as heavy and as old as your lone passenger," the man declared, "why should you refuse to take me up?" "Because this is Lord Curzon," responded the railroad man, impressively. "Oh well, that's all right," replied the stranger, making for the stairs. "I'm Joffre." He was given a lift.

**Exide BATTERIES**

**What is—  
a worth-while battery?**

The eager whirr of the motor the moment your foot touches the starting-pedal. Lights instantly bright at the turn of a switch. Those are the gifts to you of a really powerful battery.

And when reliable power is combined with exceptionally long life, as in the Exide, then your battery is not merely a comfort, but a genuine economy.

An inferior battery, cheap in its first cost, is always the most expensive in the long run.

Exide has earned its title of the *long-life battery*, from the day eleven years ago when the first battery (an Exide) took its place in an automobile. Today more cars leave the factories equipped with Exides than with any other make of battery.

You are entitled to a real battery, and from every angle it will pay you to get one. Go to the nearest Exide service station and see for yourself the rugged quality that is built into the battery made for your car.

**RADIO**

# The Shoplifting Flapper

The shoplifting flapper is a new problem in the big stores of St. Louis. Marguerite Martyn has written and illustrated a story in the Post-Dispatch Sunday Magazine which tells about new tricks in shoplifting and new types of shoplifters who are adding new thrills to the work of the department store detective. Professional shoplifters are not so numerous as formerly, due to the more remunerative bootlegging activities of their men.

## Two Front Names, But No Last Name

A Post-Dispatch Sunday Magazine reporter has prepared an interesting history of the strange case of the South Bend baby that came into the home of Prof. Tiernan, whose wife accuses Harry Poulin. Pictures of the principals in this tangle accompany the article.

**Divorce From the Wife's Angle a Blessing**  
George A. Bartlett, celebrated as a district judge in Reno, Nevada, contributes another interesting dissertation on the divorce question to readers of the Post-Dispatch Sunday Magazine. The Corey-Gilman case discussed. What the wife-slave must endure in "little amorous excursions on the outside."

**Bishop Leonard's Lecture Canceled.**  
Cancellation of a lecture to be given Monday night by Bishop A. W. Leonard of San Francisco at the Union M. E. Church, 3610 Delmar boulevard, was announced today. Bishop Leonard has been recalled to California to preside at a church conference. He has been presiding over the St. Louis Conference of the M. E. Church at Eldorado Springs, Mo. Bishop Quayle of St. Louis was to have presided over the conference but became ill last Sunday in San Francisco.

## Have You Piles?

Then You Have Something to Learn.

Thousands who have piles have not learned that quick and permanent relief can only be accomplished with internal medicine. Neither cutting nor any amount of treatment with ointments and suppositories will remove the cause.

Bad circulation causes piles. There is a complete stagnation of blood in the lower bowel and a weakening of the parts. Dr. J. S. Leonard tried it in 2000 cases with the marvelous record of success in 98 per cent, and then decided it should be sold under a rigid money-back guarantee.

Don't waste any more time with outside applications. Get a package of HEM-ROID from Wolf-Wilson today. It has given safe and lasting relief to thousands and should do the same for you—it seldom fails.

## WOMAN KILLED WHEN AUTO IS OVERTURNED

Miss Frances Shefter of Belleville Pinned Under Car That Goes Over Embankment.

Miss Frances Shefter, 24 years old, of Belleville, was instantly killed at 11 o'clock last night when pinned under a roadster which went over a 10-foot embankment on the Freeburg road, five miles south of Belleville, and overturned.

August Graf Jr. and Anton Wolf, who was driving, both of Belleville, escaped with bruises, although Graf also was pinned under the automobile. Wolf was thrown out.

The party had been visiting in Freeburg. They were not driving rapidly, Wolf said, when the lights suddenly went out and he lost control of the machine. Wolf, after the accident, stopped several passing automobiles and with the assistance of the men in them lifted the car from his companions. Miss Shefter's neck was broken.

Miss Shefter on Dec. 15, 1920, accidentally shot and killed Dr. L. C. Tague of Belleville when she pulled the trigger of a revolver, which she said she thought was not loaded. She resided with the Wolf family at 120 North First street.

**Thirteen Hurt, Three Seriously, in Auto Accidents.**

Thirteen persons were injured, three seriously, in automobile accidents yesterday in St. Louis.

Mrs. C. O. Anderson, 63 years old, and her six daughters, who are appearing this week at the Grand Opera House, were cut and bruised at 10:20 p. m. when a taxicab in which they were passengers, backing out of the alley beside the theater on the south side of Market street, between Broadway and Sixth street, was struck by an eastbound Market street car. The motorman and the chauffeur were charged with careless driving.

**Child Struck by Auto.**

Dorothy Odger, six years old, daughter of Mr. and Mrs. William Odger of 2735 Wyoming street, was taken to the city hospital with a skull fracture after she was struck at 4 p. m. by an automobile driven by Albert J. Kraehn, 2611A Nebraska, at California avenue and Wyoming street. Kraehn was driving south on California when the

child started to cross to the west side of that street.

Naysebe Roland, 12, son of Gus Roland, 3934 North Market street, suffered a fractured skull at 5:15 p. m. when he ran from behind an eastbound Easton avenue car into the path of the westbound automobile of Richard O'Toole, 2824 North Euclid avenue. The boy was taken to the Deaconess Hospital in a serious condition.

**Cuts Throat in Pullman Car.**  
CHICAGO, Sept. 22.—Dr. E. M. Spore, physician of Battle Creek, Mich., attempted suicide in a Pullman car en route from Kansas City Wednesday night by cutting his

throat with a razor. He was taken to a hospital when the train reached Chicago. Physicians said he may die. Dr. Spore's wife lives at Augusta, Mich. He formerly lived at Kirksville, Mo. No motive for his act was given.

## 2-Pants Suits

If you are the average man, you undoubtedly have at least one good coat and vest that is practically useless because the trousers are "worn out." It is this condition that has prompted Bond's to especially feature 2-Pants Suits this Fall—in that way the fullest possible service that a suit can give is obtained.

**BOND'S CLOTHES**  
**\$25.**

## Bond's 2-Pants Suits

### The Best Buy in St. Louis

We have pointed the way to clothes economy to thousands of men, and we stand ready to show you, too, how you can buy real *quality clothes* without placing any undue strain on your pocketbook.

Bond's Clothes is the answer to your question of what kind of clothes you can depend upon—clothes that are *high in quality but low in price.*

## Save Money by Dealing Direct With the Maker

It is hardly necessary to enumerate the many *expense items* which are absolutely *eliminated* by dealing direct with the maker. You, the consumer, must pay the handling charges on whatever you buy. If these charges are *deducted*, think of how much less things would cost. Bond's operate on the direct-to-the-consumer principle—and *do* save you money.

A Good Suit deserves an extra pair of pants; you get them at Bond's

**BOND'S CLOTHES**

\$30 and \$35

## Every Good Style Is Here

At Bond's you will always see the newest styles *first*—for Bond's Clothes are designed by men who are in constant touch with the very latest ideas created in New York. Our method of selling through our own stores keeps our stocks always fresh and complete. It's a "grand and glorious feeling" to walk into Bonds—ask for the style you want—and *get it.*

### Bond's OVERCOAT Display

—is nothing short of wonderful—and well it should be—for here you will find great big rompy Ulsters, snappy Ulsterettes and a host of other styles. Look at Coats selling for as high as \$75, then come to Bond's—this comparison test will sell thousands of Bond's Coats this season.

## Fashion New ROINES OF HISTORY

Notes  
Incidents in the Lives of Famous Women

By MARK STUYVESANT

Has Been Honored Over Twenty-Three Centuries

Throughout the wide domain should die.

When Queen Esther heard of the injustice she was heartbroken. She knew that she must confess to her husband that she was a Jewess and risk not only losing the love of her husband, but her life if she would save her people. However, she did not flinch, and, going to the King, she interceded for the Jews, who, meanwhile, were being led by Mordecai in a gallant struggle against Haman.

The King was very angry at first when Queen Esther made her confession, but finally he listened to his wife, and withdrew his command that the Jews be put to death, also recalling Haman from the field. Thus a large part of the Jewish race was saved from extermination. Haman, who was found by Queen Esther to be a traitor, was hanged on the gallows which he had prepared for Mordecai.

When the King learned that Mordecai was the foster-father of Queen Esther he took him into his confidence and elevated him to the highest office in the state. The Jews, who had always been persecuted by the King, were afterward given their rights.

The deliverance of the Jews has been celebrated for over 23 centuries as "the days of Purim."

Mistress-at-arms is the official title bestowed upon the official chaperons who have been added to the working personnel of all vessels operated by the United States lines.

### After-Dinner Tricks

### No. 234—Divining Chosen Number.

SET a watch on the table and ask anyone to pick a number upon it. Tell the chooser you will point at random to various numbers on the watch and he is quietly to count your strokes, counting your first stroke as one above the number he chose. When you reach 20, he is to say "stop," and you will be pointing at the chosen number.

For example, the spectator secretly chose the number eight. As you point at a number, he says to himself, "nine," "10" at the next and so on. But when he counts "20," and says "stop," out loud, you are pointing at number eight—his chosen number.

The secret depends upon a simple rule which always works out. The number chosen by the spectator makes no difference whatever. In pointing at the number, point hit or miss for the first seven—anywhere on the face of the clock. On your eighth point, however, point at the 12, and continue to the left, counter-clockwise, on the following points: Eleven, 10, nine, etc. If this rule is followed, you will always strike the spectator's number on his twentieth count.

### Gingerbread

MOLASSES, 1 cup; sour milk, 1 cup; flour, 2 1-3 cups; soda, 1 1/4 teaspoons; ginger, 1 teaspoon; melted butter, 1/2 cup.

Melt shortening in molasses; add soda and sour milk; add all dry materials which have been sifted together; beat well and bake in shallow pans.

## Making Fine Citizens

A LESSON IN BRINGING UP CHILDREN

By DR. WM. A. MCKEEVER

How a Poor Mother Accomplished Results That Wealthy Parents Too Often Fail to Realize.

Widely Known Lecturer and a National Authority on Juvenile Problems

YOU mothers of the big homes, the many comforts and the ample incomes: If you were a factory foreman's wife and a "mere foreigner," if you were confined to a five-room shut-in cottage with no front lawn, a 25x30 box in rear, the bare necessities by way of house equipment—

Could you, with the foregoing restrictions, bring up a healthy, happy group of five children? Notice the system:

Every child starts the day clean. Every child eats only at meal time. Every child trained in self-dependence.

Every child is taught to assist with the household. Every child gets out daily for an hour in the park or for a walk.

How does one woman accomplish so much? you ask. System is the answer. This little foreign-born Slavic mother of two boys and three girls caught the method and spirit of her splendid system at a humble settlement house. She not only learned all that was taught her, but she added something out of her own native ingenuity.

The children range in age from four to 12. From the time they could stand alone the mother has taught them to wait on themselves and make every stroke count. Even the four-year-old dresses herself, puts her night garment away, washes her face and comes to breakfast with the others. The eldest girl, 12, can do practically any of the work of the household.

Here we find in a cramped little residence place the practice of all the home training virtues necessary for complete family life and for the making of a great American citizenship. And yet these virtues

are so simple as to be easily overlooked. Let us enumerate them: Every child taught self-dependence from the first.

All taught to co-operate with the family work.

All are learning the habits of frugality and economy in the careful use of the small means and the moderate things made necessary by the father's meager income.

Now, check over the list of items just given and apply them to the conduct of our well-to-do American families. Often they are found to be violating flagrantly every rule of family integrity—irregular and ill-balanced eating; irregular sleep and exercise; no training in self-help and self-dependence; no spirit of co-operation; no lessons in thrift and economy.

Our great country must continue to be satisfied with its sense-crazed amusement-mad generation of young people so long as our common parenthood comes so far short of home training virtues exemplified in the character of the humble Slavic family sketched above.

"The essence of wisdom is in simple, frugal every-day life."

### Pea Timbales

TO one cup of pulp made by forcing cooked peas through a sieve add two beaten eggs, two tablespoons melted butter, one-half teaspoon salt, speck pepper and a few drops of onion juice. Turn into individual molds, set in a pan of hot water, cover with buttered paper and bake until firm. Serve with a cup of well seasoned white sauce to which one-third cup of the whole peas has been added.

## Maxims of a Modern Maid

By Marguerite Mooers Marshall

(Copyright, 1922.)

WHEN a man makes love cleverly, it's the foolish girl who suspects she isn't the first—and the wise girl who KNOWS she isn't, and is grateful!

Marriage about as closely resembles the average young woman's idea of it as her hand-made coiffure resembles the symmetrically curled man-kin in the beauty parlor window.

A woman is never angry when a man lies to her unless she knows he is lying—and then she has a right to be angry at his lack of skill and paucity of imaginative resource.

Approaches the season for trying to remove flyspecks from the summer home, sun specks from the summer complexion, sin specks from the summer conscience.

The naive men friends of every bachelor in the past tense are forever guessing "why on earth he married that girl," and NEVER guessing that he didn't—she married him.

Home is a vastly overestimated spot; it always contains a monologist whom the audience is helpless to escape.

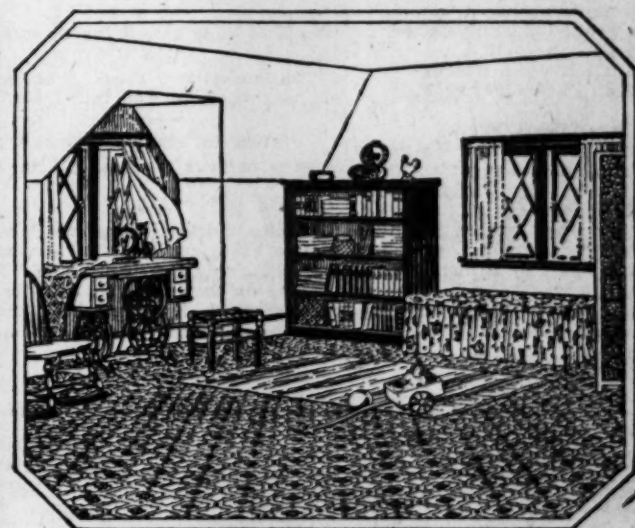

If American girls are for the long skirt, they'll fall for it in more senses than one—after these seasons of legs and the freedom thereof.

A husband is a person who has the idea that an ounce of kindness will make up for a pound of cantankerousness.

"She is the sort of woman," defined the Philosopher Philanderer, "whom men find interesting—if untrue."

## Armstrong's Linoleum

for Every Floor in the House

The room you didn't know you had

OLD trunks and old or broken furniture are stored there now. Perhaps you have never tried to make it into a room. Maybe you do not know how a linoleum floor can begin to transform your attic.

With a floor of linoleum, a rug, window curtains and a little simple furniture, the attic becomes a pleasant place in which to read or work. A linoleum floor is quiet, and easy to clean, and the occasional use of a mop keeps it looking like new.

Armstrong's Linoleum is a colorful, durable material which lends brightness and dignity to any room. It is not expensive, and when properly laid makes a floor that is remarkably good-looking.

We have a little booklet, "Decorative Linoleum Floors," containing twenty-four color plates showing new and attractive designs. It will be sent free on request. You can take it to a store and show the merchant exactly what you want to see. He will also give you estimates of the cost of Armstrong's Linoleum put down in your home.

### Armstrong's Linoleum Rugs

For people who live in apartments or who have houses on short leases and consequently do not wish to install permanent linoleum floors, Armstrong's Linoleum is also made in the form of bordered rugs. Thirty attractive patterns in four sizes from 6 x 9 feet to 9 x 12 feet.

ARMSTRONG CORK COMPANY, LINOLEUM DIVISION  
Lancaster, Pennsylvania

Chicago Office—1206 Heyworth Building

OLIVE AT TENTH

### Now Try It! Two Samples Free!

Enough Tooth Paste and Liquid Antiseptic to show you the difference between the two. Samples to be sent free upon request.

ADDRESS: SANITOL CHEMICAL LABORATORY CO., Dept. 1, 401 South Fourth St., St. Louis, Mo.

Dentists say: "Use Both!"

keeps teeth beautifully white

The other antiseptically cleanses crevices between teeth, hardens gums

TEETH improperly cared for become yellow fast. That's the film—and it will keep getting worse if you neglect it.

Check it! Soften it first with the glycerine in Sanitol Tooth Paste. Then let the superfine, gritless dental chalk in Sanitol cleanse and polish the teeth to lustrous whiteness.

But danger still remains.

The crevices between teeth, too small to admit the bristles of any tooth brush, become filled with food particles at meal time. Then comes decay unless you've learned the big secret of tooth-health. Sanitol Liquid Antiseptic, swished through and through the teeth,

in between, purifies the crevices—stops decay in remote, unbrushable parts.

That's why dentists say: "Use Both." Sanitol Tooth Paste to make teeth white and beautiful on visible surfaces—Sanitol Liquid Antiseptic for complete cleanliness in hidden crevices, where most decay starts, also to harden the gums.

Your mouth will rejoice in that cool, exhilarating, lasting, pep-perminty flavor of Sanitol Tooth Paste!

Breath becomes sweeter, teeth whiter, gums harder, crevices cleaner—the entire mouth toned up and refreshed.

Try Sanitol! Try BOTH!

## HOW FOOLISH!

THE baseball rooters rant and rave,  
How foolish!  
They just can't make their nerves behave.  
How foolish!  
When someone makes a brilliant play  
It's quite all right to shout, "hooray!"  
But when they throw their hats away—  
How foolish!

They call the ump unsavory names,  
How foolish!  
They charge him with the loss of games.  
How foolish!  
With battle cry and shibboleth  
They waste a lot of precious breath.  
As though the thing meant life or death—  
How foolish!

They take the management to task,  
How foolish!  
And oh, the questions they can ask—  
How foolish!  
The pennant rooters organize,  
Their vocal cords to exercise;  
Well, that's all right, but otherwise,  
How foolish!

The rooters sit and chew the rag,  
How foolish!  
They even thought we'd win the flag.  
How foolish!  
And when we win they give a cheer  
But when we lose they loudly jeer,  
They do the same year after year—  
How foolish!

## QUARTERBACK SPEAKING.

Hey, there, get out of the spotlight  
and let a guy in there who can give  
the public an eye-full.

## MYSTERY SOLVED.

WHEN by a bottle Witt was hit,  
And stretched upon the ground,  
The rooters sympathized with Witt  
And promptly gathered 'round.  
Though a reward was advertised,  
Nobody gets the pelf,  
For by a patron we're advised  
That Whitey beamed himself.

## RACING NOTES.

The race for the World's Series  
Stakes was a dingdong affair from  
the start, Yankee Doodle and  
Brownie Boy alternating in the lead.  
Turning into the stretch, Yankee  
Doodle was leading by half a length.  
When challenged by Brownie Boy,  
Jockey Huggins on Yankee  
Doodle let out a wrap and be-

gan to draw away from the Ball  
entry. Whereupon Brownie Boy,  
planting both fore feet on the ground,  
stopped suddenly, throwing Jockey  
Fohl over his head. Fohl, though  
badly stunned, managed to remount  
and limped under the wire second,  
10 lengths ahead of Tiger, all riden  
out.

"No Left Turn Urged for Congested  
Area."  
The longest way round is the saf-  
est way back, as the feliah sez.

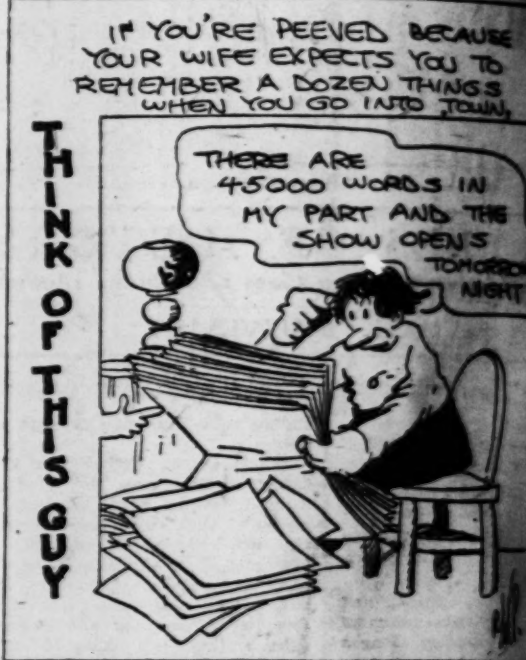

"Allen in Plane Accident."  
None of your fancy accidents for  
Allen.

"Smile Week" begins in Wash-  
ington State on Oct. 1. St. Louis  
was planning for a "smile week" be-  
ginning on that date, but has decid-  
ed to postpone it for another year.

## MY FAVORITE STORIES

By IRVIN S. COBB.

THE FULL OF THE HONEYMOON.  
In Chicago a vaudeville comedian married a lady who was likewise  
connected with the profession. Immediately after the ceremony he  
left his bride in her room and went to the nearest blind tiger, where,  
meeting a number of very congenial friends, he proceeded to celebrate  
the recent event fittingly. Several happy hours passed.  
Toward dusk the bridegroom went to the telephone and called up  
his hotel and asked to be connected with his room. His new wife  
answered. In a slightly husky voice he said:  
"Is that you, friend wife? Well, this is friend husband. I just  
made a date for dinner. How're things breaking for you?"  
(Copyright, 1932.)
